Over the last 39 years, AYS Ventures Berhad and its group of companies ("AYS" or "Group") operate in the trading, marketing and manufacturing of a diversified range of steel products and building materials. Throughout the years, our businesses have established a strong presence in Malaysia and Singapore and we identify ourselves as one of the market leaders in the distribution business of steel related products and building materials.

WHAT WE DO

The core businesses in AYS are diversified into three (3) divisions, namely Trading & Services, Manufacturing and Others, with a strong customer base worldwide, in dominant economic sectors such as construction, engineering and steel fabrication, oil & gas, power plant and shipbuilding.

The Group's operations as a whole provides total end-to-end solutions for our customers, acting as a one stop center for all steel and building materials related products and services. Our strong infrastructure and network in the value chain of steel will provide us with synergies to deliver solutions and creating values for all of our stakeholders.

Trading & Services Division

The major activity in the Group's Trading & Services division involves the distribution of a diverse range of steel products and construction materials predominantly in the ASEAN region. AYS is proud to be reckoned as one of the major suppliers for structural steel sections which are the main components for the construction of warehouses, high rise buildings, steel bridges, light and mass rail transport stations, manufacturing plants and processes facilities, infrastructure facilities such as air and sea terminals and its handling equipment. Over the years, AYS has developed very strong supplier networks internationally that provides reliable source of quality materials to suit the various demands of customers for different quality requirements.

WHAT WE DO

CONT'D

Manufacturing Division

The Group's Manufacturing division focuses on the production of steel purlins and customised structural steel components used in the steel construction industry. The manufacturing division is equipped with modern facilities with some latest technologies in automation machining, paving way towards Industrial 4.0.

Others Division

The Group's associate company AOK Engineering Services Sdn. Bhd. ("AOK") provides Building Information Management ("BIM") Engineering services. The in-house facilities would be able to provide data for customers in relation to material procurement for the maximum usage optimisation, saving time and cost. Apart from this, the division also houses the Group's holding company, investment holding companies and dormant companies. The Group also provides steel sourcing and project management services, and structural steel fabrication services, all in our state-of-the-art facilities. In addition, the Group operates a 160,000 square feet warehousing space in the Port Klang Free Zone ("PKFZ") and the warehouse is currently being leased out to a third-party warehouse and logistics service provider.

STRATEGIC REVIEW

OPERATING ENVIRONMENT AND OUTLOOK

Financial Year 2022 ("FY 2022")

March 2022, marked the second anniversary of Malaysia's first lockdown when Malaysia and other countries around the world were struggling to combat coronavirus disease ("COVID-19"). Throughout the FY 2022, AYS focused on doing what we could in terms of managing the business during COVID-19 pandemic that affected all walks of life globally. Many industries and businesses faced various problems such as supply chain disruptions and supply constrictions, inflated shipping and logistics costs, rising cost of raw materials, higher energy costs and commodity prices, weak domestic currency, as well as a shortage of workers.

Malaysia's gross domestic product ("GDP") performance in 2021 showed signs of improvement, with a 3.1 percent increase compared to a contraction of 5.6 percent in 2020 (Source: Department of Statistics Malaysia).

Singapore's GDP expanded by 7.6 percent in 2021 compared to a contraction of 5.8 percent in 2020 (Source: Department of Statistics Singapore).

The Malaysia ringgit ("MYR") has strengthened slightly over 2021 compared to 2020, was largely due to persistent US dollar weakness. However, due to the impact from geopolitical factors such as war between Russia and Ukraine, rise in interest rate by United States' Federal Reserve (Fed), the MYR skid past 4.40 in May 2022, its weakest on record since March 2020.

On the other hand, the SGD is also taken a toll as the COVID-19 community cases in Singapore has surged to all time high during 2021. With Singapore's economic fundamentals are going strong, the under-performance of SGD is expected to be short-lived.

Nonetheless, through concerted efforts by the Management under the strategic guidance of the Board of Directors ("Board"), we intensified our efforts this past year to further embed resilience and sustainability in our marketplace. We have built our resiliency through prudent market strategies, underpinned by our business continuity plans that include ensuring strong financial discipline; digitalisation of our systems and processes; safeguarding the safety and health of our employees, customers and business partners; while minimising disruptions to our businesses.

Overall, we are pleased with our stellar performance in FYE 2022 as we demonstrated agility in managing our markets and meeting the evolving needs of our customers as well as adaptability to overcome a very challenging operating environment besides the elevated global steel prices.

Outlook

The International Monetary Fund in the April 2022 World Economic Outlook downgraded the global growth from 5.9 percent in 2021 to 3.6 percent in 2022 and 2023 largely due to the Russia's invasion of Ukraine, China's renewed virus lockdowns, continued supply disruption caused by emergence of new COVID-19 variants, rise in energy and commodity prices, increase in global interest rates as well as global inflation pressure. On domestic front, the Bank Negara Malaysia ("BNM") has projected Malaysia's economy to grow by between 5.3 percent and 6.3 percent in 2022. This is underpinned by several factors including continued expansion in external demand supported by global demand, full upliftment of containment measures, reopening of international borders, and further improvement in labour market conditions. In addition, the implementation of investment projects and targeted policy measures will provide further support to economic activity and aggregate demand (*Source: 2021 Economic and Monetary Review report*). On the other hand, Singapore has maintained its growth forecast for 2022 at 3 to 5 percent after taking into account the global and domestic economic environment, and barring the materialisation of downside risks in the global economy (*Source: Singapore Ministry of Trade and Industry's Economic Survey report*).

After more than two years of battling the COVID-19 pandemic, Malaysia has entered the transition to endemic phase on 1 April 2022. The Malaysian economy would benefit from the reopening of more economic and social sectors as well as the country's borders, supported by higher oil prices, increase in trade and commerce, fully vaccinated population and more foreign direct investments as the country attains macroeconomic stability which is vital for the Ringgit.

Moving into FY 2023, the Board remains committed to transition to more effective and sustainable solutions to optimise AYS's businesses. We will continue to focus on operations and cost optimisation, strive to excel in providing quality products and services that deliver value growth for our stakeholders and to generate positive outcomes for our shareholders, investors and stakeholders in the longer term.

The Steel Industry

Steel remains as one of the most essential and most commonly used class of engineering materials. 2021 saw a stronger than expected recovery in steel demand driven by the ongoing recovery of economy, higher vaccination rates across the world and government support measures. Steel prices also increased sharply on the back of hike in raw material prices such as scrap, coking coal and iron ore, resulting from the supply tightness and global supply chain disruptions (i.e., shortage of components and raw materials, skyrocketing energy prices, rising shipping costs, etc.) coupled with the China's zero-COVID strategy's lockdowns as well as its government's tight control over steel production and the removal of export rebates. The situation further accelerated by the conflict between Russia and Ukraine, which are exporters of steel products, has sent steel prices soaring to a higher level.

The largest steel using sector, construction, remained more resilient than most and we expect this to continue.

Iron ore price, 2019 - 2022

MANAGEMENT DISCUSSION & ANALYSIS

CONT'D

Outlook

Demand for steel has increased by record amounts over the past two years, and this has led to record-high steel prices in 2021. The World Steel Association forecasts that steel demand will edge up 0.4 percent in 2022 to 1.84 billion metric tons after increasing by 2.7 percent in 2021 and will grow a further 2.2 percent in 2023 to 1.88 billion metric tons (source: Short Range Outlook April 2022).

The global steel market came under pressure as new lockdown measures in China sparked concern about economic growth. China is the largest steel producer in the world and the second largest economy globally. As steel is primarily used in the construction sector, a slowdown in economic growth will likely result in fewer infrastructure and property project, and hence lower steel demand. Nevertheless, analysts expect robust restocking demand in China once COVID-19 restriction ease as China will step up infrastructure construction in underpinning the economy, thus expect it will lift demand for steel and continue to support steel prices.

In the Twelfth Malaysia Plan, 2021-2025, a number of major public sector projects for infrastructure will be undertaken include the Central Spine Road, the East Coast Highway (LPT) 3, Pan Borneo Highway, West Coast Expressway, Klang Valley Double Track, Gemas-Johor Bahru Electrified Double Track and East Coast Rail Link (ECRL). Furthermore, private sector demands are also seeing firmer signs of recovery. The construction of these projects and infrastructural developments, are anticipated to remain primary factors driving the demand for structural steel.

On the other hand, Singapore's construction and civil engineering demand are expected to remain buoyant for 2022. The Building and Construction Authority expects a steady improvement in the total construction demand to reach between S\$27 billion and S\$32 billion in 2022 supported by both public sector and private sector amid Singapore's strong economic fundamentals.

Moving forward, AYS remains cautiously optimistic on the outlook for FYE 2023. The rebound in economic activity, greater mobility and the reopening of international borders will support growing demand for our steel products. We will continue to focus in strengthening strategic partnerships with global steel mills. With our strong network of suppliers and strategic procurement, our supply chain becomes more efficient, cost effective and productive. Thus, we will be able to procure steel products that are high in demand and improve our margins.

However, the ongoing supply chain disruptions, skyrocketing energy and carbon prices, persisting inflation rate, global policy and political changes as well as other risks as outlined in the next section of the report may put the recovery of the steel sector at risk.

MATERIAL MATTERS

The Group maintains a continuous engagement with our stakeholders to better understand the significance of specific economy, environment and society material topics to them. These insights play important role in setting the direction of our sustainability journey and the formulation of our forward moving strategy in alignment with our stakeholders' needs and expectations.

In FYE 2018, the Group conducted its first materiality assessment via our three-step process below and identified 15 material sustainability matters representing our economic, environmental and social ("EES") risks and opportunities, where 8 out of the 15 material matters were ranked within the High to Critical range for our business operations and stakeholders.

RISK AND MITIGATION STRATEGIES

Key risks and mitigation

AYS is cognisant of the fast-paced business environment it operates in and constantly monitors the business risks and steps taken to mitigate its impact within the Group.

We embedded Enterprise Risk Management into our culture, governance structures and internal control framework to identify, evaluate and manage the strategic, financial and operational risk that may impact the Group within the Group's risk appetite.

The Group's key risks and mitigation measures in no order of priority are as follows:

Key Risks	Description	Mitigation Strategy	Link to Material Topics
 Competition	Intense competition in the market arising from new entrances of players, expansion of competitors' networks and fare wars may result in lower margin.	The Group will focus to achieve economies of scale by increasing capacity and production for better pricing strategy. Furthermore, the Group differentiates itself from competitor by constantly innovating to provide value-added solutions to customer.	<ul style="list-style-type: none"> - Procurement and Supply Chain Management - Financial Performance - Customer Satisfaction - Quality Control and Assurance
 Fluctuation in steel price	Fluctuations in steel prices would have significant impact on the profitability. Steel is a key cost component for our business operations.	The Group actively monitoring and managing its exposure by always keep up to date market information and market changes and implemented on our sales strategy in accordance with information obtained. AYS developed rapport with our suppliers to ensure favourable pricing available.	<ul style="list-style-type: none"> - Raw Materials - Procurement and Supply Chain Management - Financial Performance - Corporate Governance
 Sales & Marketing - Manufacturing Division	Inadequate or below than expected sales volume of products may lead to idle time in the Manufacturing division. Manufacturing costs play an important part in the successful of a product. Any inefficiency in managing manufacturing costs may lead to non-competitive pricing strategies for a product. This may lead to unsustainable business especially on initial stage of production.	<p>The Group has in place marketing strategies to increase sales team performance and customer service by constantly expanding market coverage.</p> <p>The Group also reviews the pricing strategies from time to time to reflect current trend to attract customers.</p>	<ul style="list-style-type: none"> - Quality Control and Assurance - Financial Performance - Procurement and Supply Chain Management - Customer Satisfaction

Our Strategic Profile

Our corporate strategy provides us the framework to guide the Group to optimising its capabilities, driving sustainable growth and to achieve the vision and the mission of the company. The strategy plan defines achievable values to the organisation and is the blueprint for business growth and sustainability.

Our strategic priorities to move the Group forward as follows:

Regionalisation

With our Regionalisation strategy to expand our footprints towards greater APEC region, we have ventured into Singapore by acquiring Steelaris Pte Ltd ("Steelaris") in 2019. In FYE 2022, integration of both Steelaris and our Malaysian's entities have seen a strong synergy by complementing each other strengths and weaknesses. AYS continues open for any possibility for any merger and acquisition ("M&A") opportunities to further expand our market coverage within APEC region.

Value-Added Businesses

Value-added business solution is one of our key strategies to differentiate ourself with competitors. By strengthening our value chain, we aimed to be a one stop steel solutions provider in steel construction industry by including processing services to add value to our customers.

Operational Streamlining

The acquisition of a piece of vacant freehold land in Bukit Kerayong, Klang measuring 23.51 acres allows AYS to expand its warehouse capacity and to consolidate all our warehousing operations in one single location to improve operational efficiency. With the new warehouses, we would be able to streamline our operational processes with centralised approach on several group functions besides increase turnover.

Digitalisation & Innovation

We continue to work towards a more sustainable business when technologies, innovations and processes are designed in line with business strategy. As we are in the steel industry, we are heavily dependent on human resources. As challenges due to COVID-19 pandemic persisted, we accelerated our adoption of digitalisation by continue investing in digital platforms and infrastructures. Among the initiatives are investment in laptops and enable VPN addresses to allow office-based employees to work-from-home to avoid disruptions to our operation. We continue to transition our learning series including focused talent and leadership development programmes and communication activities to virtual platforms. In addition, in protecting ourselves against digital incursions, we make regular investments into our cybersecurity infrastructure.

FYE 2022 was undoubtedly a challenging year with the nation focusing on rebuilding growth momentum. As we entered the second year of COVID-19 pandemic, AYS remained focused on keeping customers, businesses and stakeholders connected while continuing to strengthen our operations and financial performance. With the relentless commitment and dedication of our employees, we are proud of our FYE 2022 results, marking a remarkable revenue of over RM1 billion.

FYE 2022 has been an exceptional year for the Group. The Group has delivered its best-ever performance with revenue and profit at record levels. The Group's profit after tax ("PAT") grew to a record RM116.524 million on the back of strong revenue of RM1,116.486 million.

The Group achieved a 48% increase in revenue and 374% increase in PAT in FYE 2022 as compared to the preceding financial year. The stellar performance recorded by the Group was primarily due to rising global steel prices and our efforts in cost control disciplined.

MANAGEMENT DISCUSSION & ANALYSIS

CONT'D

The comparisons in expenses are summarised as below:

	Description / Commentary	FYE 2021 (RM'000)	FYE 2022 (RM'000)	Change (%)
Selling and Distribution Expenses	Mainly consist of transportation costs and costs associated with sales and marketing. The slight increase was due to higher business activities in FYE 2022.	12,156	12,334	1.46%
Administration Expenses	Including but not limited to staff related costs, trade credit insurance premium, management fee paid for the sales administration and accounting services and etc. The increase was due to low base effect reported for staff related cost in FYE 2021.	35,276	48,257	36.80%
Other Expenses	The decrease was due to lower depreciation charged during the financial year as an owner-occupied building has been transferred to investment properties in the 4Q FYE 2021, the absence of fair value loss on investment properties and deconsolidation loss of a 90% owned subsidiary despite increase in allowance for impairment loss on inventories and loss on disposal of PPE.	12,990	11,951	- 8.00%
Impairment Loss of Financial Assets	Mainly consist of allowance for impairment losses on trade receivables after considering past loss experience and observable data such as current changes and future forecasts in economic conditions.	1,260	3,912	210.48%
Finance Costs	Attributable to the decrease overnight policy rate by 25 basis points to 1.75% from July 2020 onwards.	12,802	10,363	-19.05%
Tax Expense	The effective tax rate was lower than the statutory tax rate mainly due to utilisation of unabsorbed business losses, unutilised capital allowances and unutilised reinvestment allowances. The overall increase in value was due to higher profit reported in FYE 2022.	4,352	28,948	565.17%

Commentary on Financial Position

	Description / Commentary	FYE 2021 (RM'000)	FYE 2022 (RM'000)	Change (%)
Property, Plant & Equipment ("PPE")	The increase was mainly resulted from an acquisition of a 23.51 acres vacant freehold land in Klang.	82,099	114,135	39.02%
Investment Properties	Resulted from addition in capital work in progress for warehouse construction and fair value gain on Investment Properties held in FYE 2022.	43,878	46,786	6.63%
Inventories	The drastic increase in inventories was mainly due to substantial increase in global steel prices. Inventories turnover increase to 219 days as at end of the FYE 2022 as compared to 154 days as at end of the FYE 2021 was attributable to meet the demand and secured orders on hand in the following quarters.	278,048	534,786	92.34%
Trade Receivables	Higher trade receivables was reflecting higher revenue but lower trade receivables turnover of 109 days compared to that of 116 days as at end of FYE 2021.	238,639	334,674	40.24%
Cash and Cash Equivalents	The total cash and cash equivalents of the Group remained positive and healthy.	31,483	44,564	41.55%
Bank Borrowings	The increase in borrowings was mainly attributable to the higher inventory holding and part finance of the acquisition of 23.51 acres of vacant land in Klang.	293,218	441,191	50.47%
Trade Payables	The trade payables turnover increased to 73 days as compared to 52 days as at the end of FYE 2021 mainly due to higher trade credit purchase of steel products.	93,983	177,964	89.36%
Total Equity	Increase mainly attributable to profits made in the FYE 2022.	278,622	411,267	47.61%

BUSINESS REVIEW

TRADING & SERVICES DIVISION

About the division

Trading & Services is the Group's core business and largest revenue contributor. AYS is proud to be reckoned as one of the major suppliers for structural steel. The division has combined warehouse area of 20 acres and storage capacity of 128,000 metric tons of material in Malaysia and Singapore to serve customers across APEC region.

Performance

Outlook & Prospect

As reported by World Steel Association, the growth in the demand for steel was projected to edge up 0.4 percent in 2022 to 1.84 billion metric tons and grow a further 2.2 percent in 2023 to 1.88 billion metric tons. In the Twelfth Malaysia Plan, 2021-2025, a number of major public sector projects for infrastructure will be undertaken include the Central Spine Road, the East Coast Highway (LPT) 3, Pan Borneo Highway, West Coast Expressway, Klang Valley Double Track, Gemas-Johor Bahru Electrified Double Track and East Coast Rail Link (ECRL). Furthermore, private sector demands are also seeing firmer signs of recovery. The construction of these projects and infrastructural developments, are anticipated to remain primary factors driving the demand for structural steel.

In Singapore, construction and civil engineering demand are projected to be between S\$27 billion and S\$32 billion in 2022. This is supported by strong pipeline of housing projects, healthcare developments and infrastructure work such as the Cross Island MRT Line, Jurong Region MRT Line, Tuas Water Reclamation Plant and new Build-To-Order (BTO) units. On the other side, the private sector construction demand is expected to comparable with the volume in 2021, given the latest property cooling measures. However, commercial building demand is expected to increase, as hotels and attractions undergo refurbishment to prepare for inbound tourism travel. In addition, the industrial building demand is expected to see some support from the construction of energy storage facilities and biopharmaceutical manufacturing plants.

The on-going Russia-Ukraine crisis and China's zero-COVID strategy's lockdowns and cut on steel production policy will have huge impact on global steel demand. The energy and commodity prices are expected to remain high in the medium term. Nonetheless, we expect demand for steel grades which AYS is supplying continue being robust driven by sustained strength of regional demand and still-buoyant exports.

The Trading & Services division will continue to focus on the Group's Warehouse Rationalisation Programme and to embrace digitalisation as a means to maximise productivity and access new markets.

MANUFACTURING DIVISION

About the division

The Group's 100%-equity owned subsidiary, CH Yodoform Sdn. Bhd. involves in the manufacturing and marketing of steel purlins and structural steel components used in the steel construction industry. The division operates a state-of-the-art, industrial 4.0 ready manufacturing hub in Kapar, Klang with strong competitive advantage to supply to various projects and industries.

Performance

Outlook & Prospect

Malaysia's Ministry of International Trade and Industry has imposed anti-dumping duties on certain flat-rolled steel imports, this has resulted in increase of steel prices in domestic scene. With the recovery in construction activities both in Malaysia and Singapore, the Group is optimistic on its performance for the upcoming financial year. However, key raw materials and fuel prices remain highly volatile as global demand rises while supply continues to be disrupted by rising and prolonged geopolitical tensions.

The Manufacturing division continues to adopt its business strategy which aims to work alongside with customers in steel construction projects, providing end-to-end steel solutions from engineering design, material procurement, and fabrication to erection of steel structures to add value and at the same time help customers to create value by improved productivity and cost saving.

With numerous successful completed projects in the FYE 2022, the division will continue to develop in this business strategy and to focus on further improvement in the productivity as well as to improve services for our customers. The Group will mobilise its strengths and create synergies to ensure that the division sustains its market share by penetrating new segments or regions and explores suitable technology and digitalisation initiatives to increase operational efficiency.

OTHERS DIVISION

About the division

The Others division consists of property management, 3D Building Information Modelling (BIM), investment holding and dormant companies.

The property management is managed by a wholly-owned subsidiary - AYS (FZ) Sdn Bhd ("AYSFZ") which currently operates a 160,000 square feet warehousing space in the Port Klang Free Zone ("PKFZ"). At present, the warehouse in PKFZ is being leased out to a third-party warehouse and logistics service provider.

On the other hand, our associated company, AOK Engineering Services Sdn. Bhd ("AOK") provides 3D BIM services in supporting the construction and steel fabrication industries as well as major clients in Japan for their projects. AOK was incorporated in 2015 under a joint venture with Kondo Steel Corporation (Japan), Okaya & Co. Ltd. (Japan) and Okaya International (Malaysia) Sdn. Bhd. Currently, AOK operates a dedicated office in Damansara, Selangor, Malaysia.

Performance

Outlook & Prospect

AOK continuous acts as one of the primary suppliers to provide engineering services to create synergies amongst the Group. Among the notable synergies created was AOK develops 3D model and provides numerical data that can be directly link to our subsidiary company, CH Yodoform Sdn Bhd's ("CHY") steel processing equipment to enable automatic positioning of the drills and saws to produce precision structural components easily and efficiently, and ready to be erected into building or manufacturing plants. CHY has successfully worked on several projects in the financial year and proven that we can be a strong partner to steelwork contractors and act as a one stop centre for fabrication solution.

BIM is an useful tool in our digitalisation programme and AYS Group will certainly focus on our endeavour to further develop the AOK content to help our digitalisation success.

Besides that, AYSFZ has a leased land situated in PKFZ where its location is unique to provide facilities for international cargo distribution and consolidation centre. We are expanding our warehousing space in the PKFZ to serve our tenant better with extra 109,000 square feet and in the same time increasing our recurring rental income.

We are grateful that we have recorded a profit before tax of RM1.561 million in this division in FYE 2022.

Construction progress of our warehousing space expansion in PKFZ. Expected to be completed in June 2022

APPRECIATION

With the supports of our various groups of stakeholders, we are able to continue pursuing our strategic goals and missions, and have performed well in this financial year. Although some uncertainties remain about the development of the endemic phase, we remain confident that we have the right strategy in place for continued success over the longer term. On behalf of the Group, I would like to extend my sincere gratitude to all our employees, who have dedicated their time and efforts through another tough year. To our valued shareholders, customers, suppliers, bankers, business partners and regulatory authorities, we deeply appreciate for their unwavering trust, faith and supports to AYS. I am also grateful to the Board of Directors for the insight and valuable guidance given in assisting the Management team.

SUSTAINABILITY STATEMENT

About This Report

We are pleased to present the fifth sustainability statement of AYS Group where it has been a pillar of the Group's culture that we strive to achieve continuous growth and creating long-term values with stakeholders without compromising the needs of the future generations. We acknowledge that our long-term growth and continual values that benefit all stakeholders are associated with our responsibility to the three aspects of sustainable development i.e. Economic, Environmental and Social ("EES"). Despite the challenges brought on by the COVID-19 pandemic, AYS remains committed to embed sustainability principles - EES, in all aspects of our business operations, whenever possible.

This statement should be read in conjunction with other statements in this Annual Report (i.e. Management Discussion & Analysis, Corporate Governance Overview Statement and Statement on Risk Management and Internal Control).

Reporting Framework and Guidelines

AYS Group's Sustainability Statement has been prepared in line with the following reporting guidelines and frameworks:

We continue to incorporate the Integrated Reporting ("IR") Six Capitals (i.e. Financial, Manufactured, Intellectual, Human, Social & Relationship and Natural) as prescribed by the International Integrated Reporting Council framework of Integrated Reporting in this statement as adopted in prior year.

OUR COMMITMENT TO SUSTAINABILITY

Elements of sustainability have always been part of AYS's DNA. This have been reflected in our vision and mission, core values, policy statements and work practices across our operations and contribute to the development of the Group's Sustainability Framework.

Our Environmental, Social and Governance Policy states our commitment to sustainability that:

- Balancing EES risks and opportunities in the interest of stakeholders to enhance investors' perception and public trust.
- Making the Earth a better place to live in through responsible investment and weigh on an appropriate risk-return profile for these investments.
- Considering the impacts of the Group's operations on the local community.
- Ensuring potential negative impacts on environment, society, human health and safety are properly assessed, addressed and monitored.
- Focusing on compliance and policies, and uplifting the integrity of the Group's subsidiaries, its shareholders, Board of Directors and employees.

Sustainability Target

In FY2020, we set seven targets to monitor our sustainability performance, we achieved three out of the seven in FY2021. We achieved the other two targets that were still in-progress during FY2021 in FY2022. In the meantime, we set another one target in FY2022.

Target FY2021		Performance in FY2022
	Upgrade and implement certification for ISO 45001:2018	Achieved: Certificate obtained on 18 May 2022.
	Construction of new covered warehouses with warehousing facilities	In-progress: The sales and purchase agreement has been completed with issuance of land title with the endorsement of the category of land use "Industrial" and ownership transfer has been done on 16 March 2022.
	To integrate sustainability strategy and framework into overseas subsidiary's business operation	In-progress: The Group is still in the stage of integrating the sustainability strategy and framework into our overseas subsidiary's business operation.
	Establish a CSR Task Force to develop a community development strategy	Achieved: AYS Fans Club was formed on 3 January 2022 as CSR Task Force to conduct social programmes.
Target FY2022		Performance in 2022
	Embark on renewable energy project for sustainable environment	In-progress: The Group has committed for 125kWp Solar PA system aiming to increase the usage of renewable energy.

The United Nations Sustainable Development Goals ("UNSDG")

In 2015, the United Nations (UN) outlined 17 SDGs, setting an agenda for countries across the world to work together to create a sustainable future for all by 2030.

The UNSDGs are comprehensive, covering all areas of social inequality - including gender discrimination, health and education - and calls for action to spur economic growth as well as protect the environment through climate change mitigation and the preservation of our forests and oceans.

Collectively, the UNSDGs stand as a clear blueprint to shape sustainability programmes and platforms.

At AYS Group, we support all the 17 goals and have prioritised five in which we have the potential to make a significant difference.

SUSTAINABILITY GOVERNANCE

Robust governance ensures successful incorporation of sustainability measures across our operations. Sustainability at AYS Group is led by our Board of Directors (“BOD”), which oversees the Group’s sustainability practices and performance, and validates all sustainability related decisions.

To further strengthen our sustainability practices, the BOD is supported by the Sustainability Steering Committee (“SSC”) comprising representatives from all levels of the Group in managing the sustainability related matters. The Sustainability Working Committee (“SWC”) makes up the remaining governance structure with roles and responsibilities to ensure our sustainability practices and initiatives are maintained and followed by our stakeholders. The SSC endeavours to review, develop and implement sustainability strategies which ultimately embedding sustainability goals into the daily business operations and strategies.

SUSTAINABILITY GOVERNANCE STRUCTURE

CREATING VALUE

The cornerstone of our strategy is a focus on long-term value creation through operational, financial, social, environmental and reputational resilience.

FINANCIAL CAPITAL

Economic sustainability continues to be one of AYS’s most prioritised matters as we strive to create long-term value for our business and our stakeholders. We are committed to generate sustainable financial and economic returns without compromising on the value to our stakeholders in order to ensure the sustainability of our business. Please refer to the Management Discussion and Analysis section of this Annual Report for more details regarding the Group’s financial performance.

HUMAN CAPITAL

CORPORATE GOVERNANCE

AYS is always committed to promote values of integrity, transparency, accountability and good corporate governance. Sustainable business practices require strong and effective corporate governance. In order to sustain long-term value creation and protect the interest of stakeholders, AYS's governance framework is guided by the Malaysia Code on Corporate Governance 2021. The detailed disclosure is presented on our Corporate Governance Overview Statement on page 63 to 74 of this Annual Report.

Ethics and Integrity

Establishing a culture of integrity and ethical in the workplace is essential in preservation of the Group's reputation and thereby increase the confidence of stakeholders. The Board continues to uphold good business conduct by ensuring there are adequate policies and procedures in place. Directors, employees and business partners of the Group are required to observe and maintain high standards of integrity and ethical behaviour in the performance of their responsibilities or conducting business. We have also made available our Code of Business Conduct to stakeholders through our corporate website.

Anti-Bribery and Corruption Policy and Whistleblowing Policy

AYS has established an Anti-Bribery and Corruption ("ABC") Policy to set out the policy and general principles, guidelines and processes to minimise and eliminate the Group's exposure to the risk of unlawful conduct relating to bribery and corruption. The ABC Policy applies to all Directors, employees and business associates to act ethically, with integrity and honestly, transparently and in a trustworthy manner, in all the dealings with other persons on behalf of or with the Group. Our ABC Policy cover gifts, hospitality and entertainment, donations and sponsorships, facilitation payments and more.

AYS adopts a zero-tolerance approach towards all forms of bribery and corruption. Refusal to engage in activities inconsistent with our fiduciary duties, or the reporting in good faith or soundly suspected violations, will not be reprimanded even if such actions may result in losing a piece of business or commercial advantage for the Group.

Hence, we have in place Group Whistleblowing Policy with mechanisms to enable all employees and members of public to disclose any suspected misconduct or illegal acts and provides assurance of protection in accordance with this Policy via the dedicated whistleblowing reporting channels.

All alleged wrongdoing will be investigated and such breaches may lead to disciplinary measures, including dismissal. For the year under reporting, the Group has received zero whistleblowing report via the whistleblowing reporting channels.

All existing employees have been briefed through the requirements of the policies and they are aware of the Group's stance and expectations as well as the procedures outlined in the policies.

The policy can be viewed at <https://ays-group.com/governance.php>

OCCUPATIONAL SAFETY AND HEALTH ("OSH")

AYS believes that a lack of good safety and health practices may lead to incident that would affect the health and safety of our employees, operational efficiency and reputation and in the long run, impact our profitability. Health and safety is the foundation of a sustainable business thus our first priority is to keep our people safe.

We strive to comply with relevant laws and legislations to ensure that health and safety in the workplace is not being compromised amid the COVID-19 pandemic and the general well-being of our employees is protected.

The Group's commitment to operate responsibly in a safe and healthy workplace for employees is reflected in the establishment of Safety, Health and Environmental Committee ("SHEC"), which comprised the management as well as the workers are varying ratios across each of our subsidiaries.

SUSTAINABILITY STATEMENT

CONT'D

We have also formed an Emergency Response Team (“ERT”) comprising of first aiders, fire fighters and chemical spillage team. This Committee provides a platform for employees and employer to discuss and address health and safety issues. It is responsible for the formulation of mitigation measures to minimise accidents and occupational health issues, ensuring the Group adheres to regulatory requirements and creating awareness of OSH risks and hazards within the Group.

It is the policy of AYS to give the highest priority to have zero workplace fatalities and to drive down overall lost-time injuries. AYS Group communicates with all employees through safety meetings, trainings, and awareness sessions to ensure employees are informed and kept up to date of the latest OSH matters and best practices.

Examples of health and safety initiatives that were conducted in FY2022 are:-

- Safety signage: We place all required signage in designated areas.
- Fire drill: We conduct a fire drill once every two years for all employees.
- Health and Safety briefing: We conduct weekly and monthly briefing session on health and safety at operating sites to all employees.
- Health and safety induction: We provide a briefing to all new employees on Health and Safety SOPs.
- Health and safety awareness programme: We carry out health and safety awareness programme periodically on health and safety knowledge and best practices.
- Provision of basic First Aid, Automated External Defibrillator (AED) and Cardiopulmonary Resuscitation (CPR) training.
- Provision of ERT and chemical spillage training.
- Regular maintenance of fire-fighting equipment.

Due to our efforts to foster a safe work environment, we recorded zero major injury and a total of 408 hours of loss time injury (“LTI”). Our Lost Time Injury Frequency Rate (“LTIFR”) for this year recorded at 719.25. Investigations and corrective actions were immediately undertaken following the incidents.

In FY2022, we maintained our target for zero fatality case. Nonetheless, we will strive harder to ensure that “zero” fatality is maintained and also to reduce further on both the LTI and LTIFR as an effort of our continued improvement on safety initiatives and engagement programmes and to protect our employees and public from any safety and health risks related to our operations.

Procedure to Operate Amid COVID-19 Outbreak

The threat of COVID-19 still lingers and affect our daily lives and operation, especially with the arise of different COVID-19 variants that come with higher infectivity and mortality rates. It is our responsibility to ensure the safety of our employees, customers, suppliers and the communities in which we operate.

Therefore, since the beginning of the pandemic outbreak, we have implemented various preventive measures and Standard Operating Procedures based on the guidelines and instructions of the Ministry of Health, Ministry of International Trade and Industry which are the following:

TALENT MANAGEMENT

One of AYS's most important resources is the collective skills, capabilities, and experiences of its workforce. High calibre, professional talent is essential in driving higher productivity and ensuring operational excellence across the Group.

In many ways, the Group's ability to sustain financial and non-financial values is dependent on the recruitment, retention, and development of a competent, capable and experienced workforce. Hence, the Board and Senior Management seek to bring on board the best talents and to retain them by offering an attractive work environment, one that values the opinions of everyone and that positively divergent perspectives.

Employee Distribution

At AYS, we promote diversity and inclusion and will not tolerate any form of discrimination. We believe that diversity in professional background and experiences as well as gender, ethnicity and culture promote a richness of ideas and perspectives which supports innovative thinking and creativity.

As of end FY2022, AYS employed a total of 204 staffs, comprising 59% men and 41% women. The gender distribution is skewed by male dominance in operational functions which involves heavy manual task. Nevertheless, we do not restrict our female employees from undertaking any professional positions and tasks, provided that they are fully qualified for the job.

Embracing an equal opportunity culture, we stand strongly against any form of gender, racial or age discrimination. Therefore, in hiring, we look at candidate's qualification, knowledge, skills, training and experience rather than gender, age or cultural background.

The Group's total employee distribution by gender, age and employment category for FY2022 is presented in the graph below. The employee's age distribution within the Group mainly ranges in the 30 to 50 years old age group (68%). This group is made up of experienced and skilled employees and we are committed to further build their knowledge and skills in the future.

Training and Development

The continued upskilling of employees through training and development is a fundamental aspect of the Group's approach to talent management. As such, we place great importance on developing our workforce through training programmes aimed at improving product knowledge, providing updates on current industry trends and enhancing competency, in preparing for current and future industry climate.

Due to enforcement of movement restrictions to control the spread of the contagion, we capitalised on online learning platforms to carry out training.

Remuneration and Employee Benefits

We ensure our most valuable assets - employees are compensated fairly and competitively by benchmarking periodically against market salary levels and employment benefits to show our recognition and appreciation towards their contributions to the Group.

To foster a culture of engagement, we continually invest in building our engagement capabilities and monitor the progress we are making, to identify any development areas. By creating a respectful and trusting relationship among employees, the turnover rate could be maintained at a relatively low level.

Performance Management and Employee Engagement

We recognise that engaged employees are more invested in a company, feel a greater sense of belonging and are more inspired to perform their best.

AYS seeks to cultivate team work and strong employer-employee relationship by engaging with the following activities:

Festival Celebrations

Birthday Celebrations

Sport Activities

Besides, AYS encourages employees to have more communication with their superiors which includes but not limited to regular performance discussion, where on-going mentoring programmes are provided with subsequent follow-up to ensure that employees meet their objectives and career goals. AYS has in place a structured performance evaluation system incorporating target setting and performance assessment on annual basis with involvement of both the employee and his/her superiors, with processes in place for face-to-face interaction, feedback, performance review and career development review.

Employees are also able to provide feedback to the Group on areas of concern at the workplace through participation in survey to identify needs of staff, grievances, if any, and areas where improvement is required.

MANUFACTURED CAPITAL

Trading & Services

AYS is one of the leading steel and construction materials distributors in the region with approximately 20 acres of warehousing land and a capacity of 128,000 metric tonnes of storage capacity. With its spacious and well-equipped warehouses, AYS trades in large variety of flat and long steel products of various grades and dimensions.

Manufacturing

AYS operates with its state-of-the-art industrial 4.0 ready factory with 20,000 metric tonnes of annual capacity, covering over 10,000 meter square of workshop area to provide pre-fabricate steel structure components by an automated CNC cut & drill process including shot blast & shop prime. It manages project by integrating BIM model, process precisely, tracking all components information till assembly.

Our cold roll forming manufacturing facility with 8,400 metric tonnes of annual capacity, provide technical advices and services to meet production orders for both local and overseas markets. All YODOFORM sections are precisely cold-formed from imported high tensile zinc coated steel and conforms to all international standards.

INTELLECTUAL CAPITAL

Intellectual capital is an intangible asset that contributes to the Group's bottom line. These assets include the expertise of employees, organisational processes, and the sum of knowledge contained within the Group.

AYS has strong presence in the regional markets, with more than 39 years of history, and has identified itself as one of the market leaders in the distribution business of steel related products and building materials. The YODOFORM 'Z' and 'C' sections are precisely cold-formed from imported high tensile zinc coated steel which conform to all international standards.

Our human capital, core values, vision and mission statement, company policies and procedures, work culture, and its organisational structure also create values and contribute to an improved competitive position for the Group.

NATURAL CAPITAL

AYS embeds sustainability practices to protect the environment and further translate to cost effective measure to improve the efficiency of our operations and processes. SHEC with the support of Safety Officer have identified every significant environmental aspect of our operations with detailed work instructions and standard operating procedure to manage specific activity.

Our environmental efforts:

Air Quality Control	Control and monitor closely air emission at manufacturing site
Noise Control	Monitoring of boundary noise to ensure noise level not exceed permissible sound limit
Energy Control	Implement energy conservation initiatives
Water Control	Implement water conservation initiatives
Waste Control	Continuous monitoring on scheduled waste generation and disposal method
3R	Advocate 3R (reduce, reuse, recycle) as part of waste management protocol

Energy and Water

Electricity is the main source of energy consumed at our workplace and it is important due to the energy-intensive nature of steel manufacturing processes. Although natural capital is not a material input in our workplace, the Group is aware that despite this, we have a role to play in addressing the energy and water conservation. We continuously monitor the way we manage our energy and water consumption. We have formulated a list of energy and water conservation initiatives and communicated to all employee to adhere to these initiatives.

Energy Conservation Initiative:

- Replace conventional lightbulbs with LED bulbs to reduce long term cost of electricity
- Switch off computers and electrical appliances when not in use
- Switch off lights and air-conditioning system during lunch time
- Switch off air-conditioning system in the meeting rooms when the rooms are not occupied
- Install factory roof with a design that facilitates natural lighting to minimise the use of light features
- Install LED street light surrounding the warehouses/factory

Water Conservation Initiative:

- Place signages at strategic location such as toilet, pantry and etc. to conserve water
- Taps in the toilets and pantry should not be left running when not in use
- Inspect toilets and pantry regularly to ensure no leakage pipes
- Detect and repair immediately any water leakages

Environmental Monitoring

Protecting the environment is on our list of priorities. To ensure we continue to operate within permissible regulatory limits, we continue to carry out environmental monitoring assessment periodically by independent qualified consultants. The findings are submitted to the government agencies to provide independent verification of our environmental results.

Waste Management

Our policy is to reduce as far as possible all waste generated by our operations, and to maximise our recycling rate. We practice the 3R (Reduce, Reuse and Recycle) approach in which we segregate recyclables including reusable waste. With this, we managed to reduce considerable amount of waste being disposed to domestic waste collection by the local council. To facilitate waste segregation, we provide several bin types for different recyclable waste comprising paper & cardboard, plastics, cans and glass at several locations. We collaborate with a local non-governmental organisation ("NGO") and contribute our reusable waste to them on a periodic basis.

In addition to the above, the scheduled waste from our manufacturing processes is managed in accordance with the Environmental Quality (Scheduled Waste) Regulations, 2005. Scheduled waste generated is properly stored and labelled and disposed in every six months, or as and when it reaches a certain quantity. We only appoint contractors who are licensed by the DOE to collect and transport the scheduled waste for treatment prior to disposal.

Customer Engagement

Our customers are our top priority. We recognise that happy customers are repeat customers who also serve as the best ambassador. Measuring customer's satisfaction enables us to better meet their needs, build their loyalty and boost our brand reputation. Over the years, our customer engagement methods have become stronger and more efficient.

Our customer engagement methods inclusive of the following:

Customer Satisfaction Survey

We conduct customer satisfaction survey once a year which forms a key engagement channel with this important stakeholder group to ensure our products and services achieved above-average scores that meet the needs and specifications of customers.

Events and Activities

The Group attend trade fairs and exhibition to communicate with customers. However, due to COVID-19 pandemic, marketing events, conferences and face-to-face meetings have been largely restricted or cancelled.

Meeting

Our sales & marketing team frequently interacts with customers to ensure that we keep abreast of the latest developments and market trends. It is our intention to reduce physical interaction during the COVID-19 pandemic, however, if physical interaction is unavoidable, our sale & marketing team shall strictly comply to our internal COVID policies and procedures, and also to comply with customer's COVID-19 related procedures.

After Sale Services

Good after sales service helps improve long term brand image and loyalty. Our teams are always ready and have efficient support services to provide and share technical knowledge on the products when required.

Compliance

At AYS, we promote a culture of compliance by ensuring strict adherence to laws and regulations to maintain our license to operate. In meeting the legalities outlined by national laws, the Group complies with the following general regulatory requirements related to the trading and manufacturing industry listed in the table below. Legislations we adhere to include but are not limited to:

Economic	✓ Employment Act 1955
	✓ Companies Act 2016
	Minimum Wage Order 2016

Environmental	✓ Environmental Quality Act 1974
	✓ Environmental Quality (Scheduled Wastes) Regulations 2005
	✓ Environmental Quality (Clean Air) Regulations 2014
Social	✓ Fire Services Act 1988
	✓ Occupational Safety and Health Act 1994
	✓ Factories and Machinery Act 1967

In FY2022, we recorded zero non-compliance with environmental laws and regulations.

Quality Management

High quality products and services are an integrated part of AYS's management system.

We uphold stringent standards and certifications across all our business processes to improve our products' reliability, durability and performance of our products. We maintain strict compliance with the quality and operations system certifications as part of an annual assurance to our stakeholders on our commitment towards meeting our customer requirements.

As part of our ongoing initiatives to achieve our customers' continued trust and confidence in the quality of our products and services and customer satisfaction in all elements of our business, we maintain our certification to the following standards for the Group and our three subsidiaries. These certifications are accredited by Standards Malaysia and the United Kingdom Accreditation Service (UKAS) and certified Bureau Veritas Certification (Malaysia) Sdn Bhd.

Our entities are ISO 9001:2015, ISO 14001:2015 and ISO 45001:2018 certified.

Supply Chain Management

Building an effective sustainable supply chain management helps to increase the efficiency of productivity, at a significant cost savings and minimises the Group's operational and financial risk, while always remaining in compliance with our Code of Ethical Conduct.

AYS relies on hundreds of suppliers to ensure smooth business activities across its operation. Thus, we have incorporated sustainability policies and create a cascade of sustainable practices into our procurement strategy to build a robust, reliable and sustainable supply chain. We promote fair business practices and compete in an ethical manner as well as ensure all suppliers and vendors are given fair and equal opportunities to conduct business with us.

Prior to appointment, all suppliers and vendors undergo a screening process against a set of criteria to ensure parties will be able to deliver quality products. Once appointed, all suppliers and vendors are subject to regular performance evaluations to ensure we continuously engage with high-performing partners who are able to assist us in meeting customer expectations.

As a customer-centric organisation, the Group strives to constantly explore the global procurement opportunity as well as making purchases from local suppliers in response to the requirements and needs from our customers as they support our services in trading and manufacturing of steel and construction materials.

While we may not have an official policy to enforce preferential selection of local suppliers, we are aware of our responsibility wherever possible as an effort to create domestic employment, support local businesses and reduce the carbon footprint from overseas shipment.

The quality and cost of the products that we procure play an important part in our business's sustainability and profitability. While trying to achieve profitability, we also promote sustainability of the local businesses by using local procurement sources whenever possible. AYSFZ and AYSM sources majority of the products from local suppliers. As for AYSH and CHY, we mainly source our supplies from international suppliers, mainly due to product availability that the local suppliers are unable to supply and cost efficiency.

Community Development

Engaging with the local communities in which we operate enables us to meet their needs and create long-term positive impacts. We strive to build sustainable communities through CSR activities, allowing us to give back to society.

Our CSR programmes also serve as an avenue for employee volunteerism and strengthening the relationships and morale among our employees in the workplace.

SUSTAINABILITY STATEMENT

CONT'D

During the financial year under review, most of our planned programmes were put on hold due to COVID-19 pandemic. Nevertheless, we still made various contributions, both monetary and non-monetary during these difficult times.

Our compassion to social responsibility also included local relief efforts by providing pragmatic financial support to the victims inundated by flash floods which hit Klang Valley during end-December 2021. With many of our employees residing in Klang, one of the worst flood-affected areas, we had also organised an emergency relief contribution to the affected employees to rebuild their properties and lives.

We have also conducted a blood donation campaign at our HQ office. The purpose of this campaign is to raise awareness and understand the importance of blood donation among our employees.

We have engaged with Hospital Tengku Ampuan Rahimah Klang for this campaign and managed to donate 32 bags of blood in this event where potentially these 32 bags of blood could help to save up to 96 human lives.

CONCLUSION

Throughout FY2022, we continued to make progress, measure and report on our economic, environmental and social journey. Through our talent development programme, we emphasise our commitment to developing, engaging and empowering our employees. We have demonstrated our commitment to our employees with emphasis on employees' health and safety, employees' satisfaction via surveys, diversity and inclusion. We have also been taking the appropriate measures to reduce the usage of energy and water and reduce the waste generated from our operations. In addition, we continue to invest in product development which contributing to better solutions for our customers and enhance our foundation for organic growth. As we step into FY2023, sustainability remains at the forefront of our business agenda. We will ensure that we maintain high standards of compliance and ethics in all our business practices, while striking a balance between EES factors in charting our business strategies as well as building the Group's resilience against current and future challenges, and contributing to the well-being of the community.

CORPORATE GOVERNANCE OVERVIEW STATEMENT

The Board of Directors (“the Board”) of AYS Ventures Berhad (“the Company”) recognises that the exercise of good corporate governance in conducting the affairs of the Company and its subsidiaries (“the Group”) is the key component for the Group’s continuing progress and success as these would not only safeguard and enhance shareholders’ value but also provide some assurance that the interests of the other stakeholders are preserved. The Group will continue to endeavour to comply with all the key Principles and Practices of the Malaysian Code on Corporate Governance 2021 (“the Code”) in its effort to observe high standards of transparency, accountability and integrity.

During the financial year ended 31 March 2022 (“financial year 2022”), the Board considers that it has fundamentally applied the principles and practices of the Code and is pleased to report the actions taken by the Company to conform to the Code.

The Code does provide that if the Board finds that it is unable to implement any of the Code’s practices, the Board should apply a suitable alternative practice to meet the Intended Outcome. In this respect, the Company has provided forthcoming and appreciable explanations for the departures from the said practices. The explanations on the departures are supplemented with a description on the alternative measures that seek to achieve the Intended Outcome of the departed Practices, measures that the Company has taken or intends to take to adopt the departed Practices as well as the timeframe for adoption of the departed Practices. Further details on the application of each individual Practice of the Code are available in the in the Corporate Governance (CG) Report that is available in the Company’s website www.ays-group.com.

PRINCIPLE A: BOARD LEADERSHIP AND EFFECTIVENESS

I. Board Responsibilities

The Board members exercise due diligence and care in discharging their duties and responsibilities to ensure that high ethical standards are applied, through compliance with the relevant rules and regulations, directives and guidelines in addition to adopting the Practices in the Code and act in the best interest of the Group and shareholders. The Board has adopted a Board Charter that clearly identifies the respective roles and responsibilities of the board, board committees, individual directors and management; and issues and decisions reserved for the Board. The Board Charter is available on the Company’s website.

The Board’s most important functions are as follows:

- ensuring that the Group’s goals are clearly established, and strategies are in place to achieve them;
- establishing policies for strengthening the performance of the Company including ensuring that Management is proactively seeking to build business through innovation, initiative, technology and the development of its business capital;
- monitoring the performance of Management;
- appointing the Senior Group Managing Director and setting the terms of his employment contract;
- deciding on steps which are deemed necessary to protect the Company’s financial position and the ability to meet its debts and other obligations when they fall due, and ensuring that such steps are taken;
- ensuring that the Company’s financial statements are true and fair and conform with law;
- ensuring that the Company adheres to high standards of ethics and corporate behavior; and
- ensuring that the Company has appropriate risk management or regulatory compliances policies in place.

The Board retains full and effective control of the Group and has developed corporate objectives and position descriptions including the limits to Management’s responsibilities, which the Executive Directors are aware and are responsible for meeting. The decision making of the overall Group strategy and direction, investment policy, major capital expenditures, consideration of significant financial matters and review of the financial and operating performance of the Group is reserved to the Board and formally set out in the Board Charter.

PRINCIPLE A: BOARD LEADERSHIP AND EFFECTIVENESS *cont'd*

I. Board Responsibilities *cont'd*

The principal risk of all aspects of the business that the Group is engaged in is recognised by the Board. As business decisions require the incurrence of risk, the Board has in place systems that effectively monitor and manage these risks with a view to the long term viability of the Group. This is to achieve a proper balance between risks incurred and potential returns to shareholders.

The Board takes cognisance that effective board leadership and oversight also requires the integration of sustainability considerations in corporate strategy, governance and decision-making. The Group has embraced the values of corporate responsibility and elements of sustainability management since the early days of its operations and these values are reflected in the Group's vision and mission statements, core values, policy statements and work practices. This is especially so. Since sustainability and its underlying environmental, social as well as governance (ESG) issues become increasingly material to the ability of the Group to create durable and sustainable value and maintain confidence of all its stakeholders. To remain resilient, the Board has taken a much more holistic view of the business coupled with proactive and effective measures to anticipate and address material ESG risks and opportunities.

In discharging its fiduciary duties, the Board has delegated specific tasks to three (3) Board Committees namely the Audit Committee, Nomination Committee and Remuneration Committee. All the Board Committees have its own terms of reference and has the authority to act on behalf of the Board within the authority as lay out in the terms of reference and to report to the Board with the necessary recommendation.

The Board is headed by an Independent Non-Executive Chairman with a wealth of experience garnered from both the public and private sector. The roles of the Independent Non-Executive Chairman is defined and set out in the Board Charter and is further explained in the CG Report.

Whilst the Code recommends the best practice that the Chairman of the Board should not be a member of the Board Committee, the Company has not been able to apply this best practice as the Board is of the view that the objectivity of the Chairman or the Board is not impaired when deliberating on the observations and recommendations put forth by Board Committees as all the Independent Non-Executive Directors deliberate and discusses matters as a team. In addition, the Chairman is not involved in the Company's managerial and operational matters.

The roles of the Chairman of the Board and the Senior Group Managing Director are segregated. The Chairman is primarily responsible for the proper conduct and working of the Board whilst the Senior Group Managing Director is responsible for the day-to-day running of the business and implementation of Board policies and decisions. The positions of the Chairman and the Senior Group Managing Director are separately held ensuring balance of power, accountability and division of roles and responsibilities of the Board and the Management of the Group's business and operations. The Board has developed descriptions for responsibilities of the Board Chairman and the Senior Group Managing Director. The details of these responsibilities are set out in the Board Charter.

As certain Board functions are delegated to Management, the Board ensures Management is of the highest caliber and has in place programmes to train and develop Management and also provide for the orderly succession of Management.

The Board recognises the importance to devote sufficient time and efforts to carry out their duties and responsibilities and has committed to this requirement at the time of their appointment. A Director of the Company is at liberty to accept other Board appointments so long as the appointment is not in conflict with the business of the Company and does not affect his performance as a Director. None of the Directors of the Company hold more than five (5) directorships in public listed companies.

The Board is supported by an External Company Secretary who is a Fellow Member of the Malaysian Institute of Chartered Secretaries & Administrators and has more than 35 years of experience in the corporate secretarial field. The Company Secretary provide the required support to the Board in carrying out its duties and stewardship role, providing the necessary advisory role with regards to the Company's constitution, Board's policies and procedures as well as compliance with all regulatory requirements, codes, guidance and legislation. All Directors have access to the advice and services of the Company Secretary and to obtain independent professional advice, whenever necessary, at the expense of the Company. The Company Secretary also serves in that capacity in the various Board Committees. The Company Secretary also serves notice to Directors and Principal Officers of the Company on the closed periods for trading in the Company's share accordance to Chapter 14 on Dealings in Listed Securities of the Main Market Listing Requirements ("Listing Requirements").

Board Composition and Balance

During the financial year 2022, the Board comprised of four (4) Independent Non-Executive Directors and three (3) Executive Directors and a Non-Independent Non-Executive Director. The Board's composition complies with the Listing Requirements of Bursa Malaysia Securities Berhad that requires at least one-third of the Board to comprise of independent directors. The Board had applied Practice 4.1 of the Code which requires at least half of the Board to comprise of independent directors.

The Directors bring a broad range of skills, experiences and knowledge required to successfully direct and supervise the Group's business activities. The Company is led and managed by an experienced Board comprising members with a wide range of experience in relevant fields such as entrepreneurship, manufacturing, marketing, business development, finance, accounting and legal.

The Independent Non-Executive Directors of the Company are independent of management and free from any business relationship which could materially interfere with the exercise of their judgement. They provide guidance, unbiased, fully balanced and independent views, advice and judgement to many aspects of the Group's strategy so as to safeguard the interests of minority shareholders and to ensure that the highest standards of conduct and integrity were maintained by the Group. The Board had conducted an appraisal on the independence of Tuan Haji Mohd. Sharif Bin Haji Yusof, Ms Seow Nyoke Yoong and En. Mohamad Fazlin Bin Mohamad, who have served for a cumulative of more than nine (9) years as Independent Non-Executive Directors. The Board concluded that they have met the independence criteria set out in the listing requirement, their independence have not been affected by their long tenure as they have demonstrated their ability to exercise independent judgement, provide objective views and act in the best interest of the Group. The Board has in the financial year 2022 adopted the Practice 5.3 to seek Shareholders' approval for retention of long serving director.

Whilst the Executive Directors handles the day-to-day operations and implements the decisions of the Board, the Non-Independent Non-Executive Director of the Company provides guidance on strategy and continuity, using his expertise to add value to the long-term planning oversight of Key Risk Areas.

The Company has adopted a policy on diversity of gender, ethnicity and age in FY2022. In seeking potential candidate for new appointments, the Board shall take into account the various diversity factors including ethnicity, gender and age distribution of the Directors to maintain a balanced Board composition. In this respect, the Board aims to maintain at least two (2) women directors on the Board. The Board shall also review the participation of women in Senior Management to ensure there is a healthy talent pipeline.

During the financial year 2022, women directors form 25% of the Board members. The age of the Directors ranges from 42 to 83 as the Board believes that this creates an environment where each generation brings different skills, experience, and talents to the Board.

The Chairman ensures that each Director is provided with timely notices of every Board Meeting and board papers for each agenda item. This is to ensure that Directors have sufficient time to prepare for discussions, and to obtain further explanation or clarification to facilitate the decision process and discharge of their duties. The Board has unrestricted access to timely and accurate information in the furtherance of its duties. Board Committee meetings are conducted separately from the Board meeting to enable objective and independent discussion during the meeting.

Appointment to the Board

The principal function of making recommendations for new appointments or re-election of retiring Directors has been delegated to the Nomination Committee.

A Nomination Committee has been established by the Board comprising wholly of Independent Non-Executive Directors as follows:

Seow Nyoke Yoong	Chairman
Haji Mohd. Sharif Bin Haji Yusof	Member
Mohamad Fazlin Bin Mohamad	Member

The Nomination Committee is entitled to the services of the Company Secretary who would ensure that all appointments are properly made upon obtaining all necessary information from the Directors. All the assessments and evaluations carried out during the year was properly documented and minuted by the Company Secretary.

The evaluation of suitable candidate is not only based on academic but also through experience in this industry to ensure that valuable contribution which will be beneficial to the Company can be given to encourage growth of the Company.

Annually the Directors conduct a self-evaluation and the Nomination Committee assess the performance of the various committees. In the self-evaluation, each of the Directors have responded they strongly view themselves to fit in well with the other board members and are able to add to the Board's strength, abilities, experience and judgement. Practice 8.2 of the Code requires the Company to disclose on a named basis the top five (5) Senior Management's remuneration component including salary, bonus, benefits-in-kind and other remuneration in bands of RM50,000. The Company has identified five (5) senior management personnel as its key senior management (their names and respective profile as stated on page 17 to 18 of the Annual Report) and their remuneration was determined by the performance management system adopted by the Group which reflects market value and based on individual performance, roles and job responsibilities, level of skills and experience, and the Group's performance against financial objectives. The Board has not applied Practice 8.2 as it is of the view that such disclosure will give rise to recruitment and talent retention issues and there would be adverse implication including dissatisfaction and animosity among the staff, hence will not apply this Practice.

Sustainability

The Board and Management are conscious and serious about the Group's responsibility towards sustainability issues and its role in the Group's long-term strategic plans. The Board and Management are committed towards ensuring that responsible corporate conduct is demonstrated and practised in the Group's daily activities across all aspects of the Group's operations. Details on the Group's sustainability strategies, priorities, targets and performance are shared in the Group's Sustainability Statement in the Annual Report. There is continuous engagement with both the internal and external stakeholders through various platforms on the sustainability strategies, priorities and targets as well as performance against the targets. For internal stakeholder, the sustainability matters are communicated to the employees in learning & development programmes, internal newsletter and corporate events. As for the external stakeholders, the strategies, priorities, targets and progress are reported in the Sustainability Statement.

In FYE 2022, the Directors have attended various professional training programmes, particularly related to sustainability issues pertaining EES contexts in keeping themselves abreast on the arising challenges resulted from the ever-changing business environment.

PRINCIPLE B: EFFECTIVE AUDIT AND RISK MANAGEMENT

Accountability And Audit

The oversight function of the Board is served by the Audit Committee that has been established comprising wholly of Independent Non-Executive Directors as follows:-

Mohamad Fazlin Bin Mohamad	Chairman
Seow Nyoke Yoong	Member
Haji Mohd. Sharif Bin Haji Yusof	Member
Dato' Wan Hashim Bin Wan Jusoh	Member

Further details on the duties and activities of the Audit Committee is set out in the Audit Committee Report.

In line with the best practice, the Audit Committee Chairman is appointed by the Board and is not the Board Chairman.

The Audit Committee is authorised by the Board to investigate any activity within its Terms of Reference. It shall have full and unrestricted access to any information pertaining to the Group. The Audit Committee is authorised to seek any information it requires from any employee and all employees are directed to cooperate with any request made by it.

The detailed Terms of Reference of the Audit Committee outlining the composition, duties and functions, authority and procedures of the Audit Committee are published and available on the Company's website at www.ays-group.com.

The Company has always recognised the need to uphold independence. None of the members of the current Board was a former key audit partner within the cooling-off period of two (2) years. In FY2022, the Company formalised a policy that requires a former partner of the external audit firm of the Company to observe a cooling off period of at least 3 years before being appointed as a member of the Audit Committee.

The Audit Committee carried out an assessment of the performance and suitability of Grant Thornton Malaysia PLT, the External Auditors based on the quality of services, sufficiency of resources, adequate resources and trained professional staff assigned to the audit. The Audit Committee is generally satisfied with the independence, performance and suitability of Grant Thornton Malaysia PLT based on the assessment conducted and recommends to the Board and shareholders for approval for the re-appointment of Grant Thornton Malaysia PLT as External Auditors for the financial year ending 31 March 2023.

The assessment of performance of the Audit Committee is conducted annually by the Nomination Committee. The evaluation process amongst others considered whether the Audit Committee had met its purpose, whether its composition was appropriate, and whether it had the necessary authority and processes to carry out its functions and fulfill its obligations. The Nomination Committee was satisfied with the performance of the Audit Committee.

Risk Management and Internal Control Framework

The Board has established an ongoing process for identifying, evaluating and managing the significant risks faced by the Group and this process includes enhancing the risk management and internal control system as and when there are changes to the business environment or regulatory guidelines. Management assists the Board in the implementation of the Board's policies and procedures on risk management and internal control by identifying and assessing the risks faced, and in the design, operation and monitoring of suitable internal controls to mitigate and control these risks.

Risk Management and Internal Control Framework *cont'd*

The Board is aware that a risk management framework and sound system of internal control should be embedded in the operations of the Group and form part of its culture. This system should be capable of responding quickly to evolving risks to the business arising from factors within the Group and changes in the business environment. It should include procedures for reporting immediately to appropriate levels of management any significant control failings or weaknesses that are identified together with details of corrective action being taken.

The Group's internal audit function is undertaken on a co-sourcing basis. The Company's in-house Internal Auditor works together with Tricor Axcelasia Sdn. Bhd. to perform the independent risk-based internal audit review on the key operational areas of the Group.

The Statement on Risk Management and Internal Control set out in Annual Report provides an overview of the Group's approach to ensure the effectiveness of the risk management and internal processes within the Group.

Code of Business Conduct, Whistleblowing Policy and Anti-Bribery & Corruption Rules

A Code of Business Conduct was adopted by the Group in year 2013 that sets out certain fundamental commitments that the Company make to its various stakeholders including managing conflicts of interest, prevention of abuse of powers, insider trading as well as prevention measures on corruption and money laundering.

The Group advocates openness and transparency in its commitment to the highest standard of integrity and accountability. The Whistleblowing Policy serves as a tool in preventing misconduct and the Company encourages the employees or other stakeholders to make any disclosures openly and honestly and that concerns or complaints raised will be treated fairly and properly. Employees and Stakeholders have the option to make whistleblowing reports in strict confidence and all disclosures made will be dealt in a confidential manner.

The Group take a zero-tolerance approach towards bribery and corruption, and is committed to behaving professionally, fairly and with integrity in all business dealings and relationships wherever the Group operates. All employees and Directors of the Group shall comply with all applicable anti-bribery and corruption laws and regulations in their respective jurisdictions. All persons who perform services for or on behalf of the Group are expected to comply with the relevant parts of the Anti-Bribery and Corruption Policy ("ABC Policy") when performing such work or services. The ABC Policy sets out the parameters to prevent the occurrence of bribery and corrupt practices in relation to the businesses of the Group. The objective of the ABC Policy is to provide information and guidance on standards of behavior to which they must adhere to and how to recognize as well as deal with bribery and corruption.

Financial Reporting

The Directors are responsible to present a true and fair assessment of the Group's position and prospects in the annual reports and quarterly reports. The quarterly financial results were reviewed by the Audit Committee and approved by the Board prior to submission to Bursa Malaysia Securities Berhad. A statement by the Directors of their responsibilities in the preparation of financial statements is set out in the ensuing section.

Statement of Directors' Responsibility for Preparing Financial Statements

The Board is responsible to ensure that the financial statements are properly drawn up in accordance with the provisions of the Companies Act 2016 and approved accounting standards in Malaysia so as to give a true and fair view of the state of affairs of the Group as at the end of the financial year and of the results and cash flows of the Group for the financial year then ended.

Statement of Directors' Responsibility for Preparing Financial Statements *cont'd*

The Directors are satisfied that in preparing the financial statements of the Group for the financial year ended 31 March 2022, the Group has adopted suitable accounting policies and applied them consistently, prudently and reasonably. The Directors also consider that all applicable approved accounting standards have been followed in the preparation of the financial statements, subject to any material departures being disclosed and explained in the notes to the financial statements. The financial statements have been prepared on the going concern basis.

The Directors are responsible for ensuring that the Group keeps sufficient accounting records to disclose with reasonable accuracy, the financial position of the Group and which enable them to ensure that the financial statements comply with the Companies Act 2016.

Relationship with the Auditors

The Board has established a formal and transparent arrangement for maintaining appropriate relationships with the external auditors in seeking professional advice and ensuring the compliance with the appropriate accounting standards. The Audit Committee reviews and monitors the suitability and independence of external auditors. To provide support for an assessment on independence, the Audit Committee obtains written assurance from the external auditors confirming that they are, and have been, independent throughout the conduct of the audit engagement in accordance with the terms of all relevant professional and regulatory requirements.

PRINCIPLE C: INTEGRITY IN CORPORATE REPORTING AND MEANINGFUL RELATIONSHIP WITH STAKEHOLDERS

Communication with Stakeholders

The Company is committed to upholding high standards of transparency and promotion of investor confidence through the provision of comprehensive, accurate and quality information on a timely and even basis.

Conduct of General Meetings

The Company's Annual General Meeting ("AGM") serves as a principal forum for dialogue with shareholders. Shareholders are encouraged to meet and communicate with the Board at the AGM and to vote on all resolutions. Extraordinary General Meetings is held as and when required. As stated earlier, the Board recognises the importance of communications with its shareholders and will take additional measures to encourage shareholders' participation at general meetings as recommended by the Code.

The notice of the Annual General Meeting together with a copy of the Company's Annual Reports to be downloaded/requested are sent out to the shareholders at least 28 days before the meeting. Shareholders are given ample time and opportunity to raise more questions pertaining to the business activities of the Group, without limiting of the type of queries asked. During the meeting, the Group Managing Director, Executive Directors and Chief Financial Officer are prepared to provide responses to queries and to receive feedback from the shareholders during the meeting.

The Chairman highlights to shareholders and proxy holders, their right to speak up at general meetings, the conduct of poll voting for all resolutions tabled at general meetings and a review of the performance of the Group is also presented during the AGM.

To ensure effective participation of and engagement with shareholders at the AGM in 2021, all Directors, including members of AC, NC and RC, attended and participated in the AGM.

- e. they have continued to exercise their independence and due care during their tenure as Independent Non-Executive Directors of the Company and carried out their duties in the interest of the Company and shareholders; and
- f. they have devoted sufficient time and commitment to discharge their responsibilities as Independent Directors.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

INTRODUCTION

The Malaysian Code on Corporate Governance (“MCCG”) 2021 requires listed companies to maintain a sound internal control system and risk management to safeguard the shareholders’ investments and the Group’s assets.

The Board of Directors (“the Board”) is committed to maintain a sound system of risk management and internal control in the Group. Set out below is the Board of Directors’ “Statement on Risk Management and Internal Control” which has been prepared in accordance with the paragraph 15.26 (b) of the Main Market Listing Requirements of Bursa Malaysia Securities Berhad and Guidelines for Directors of Listed Issuers: Statement on Risk Management and Internal Control.

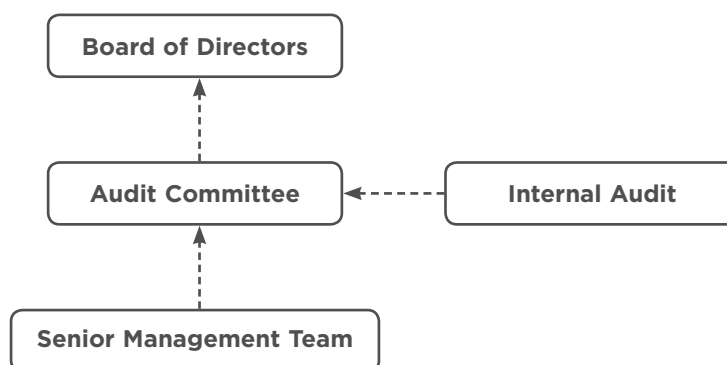

BOARD’S RESPONSIBILITY

The Board acknowledges its overall responsibility for the adequacy, integrity and effectiveness of the AYS Group’s (“the Group”) risk management and internal control system. The Board ensures that the system manages the Group’s key areas of risk within an acceptable risk profile to increase the likelihood that the Group’s and business objectives will be achieved. The Board regularly reviews the internal control system to ensure it provides a reasonable but not absolute assurance against material misstatement of management and financial information and records or against financial losses or fraud.

The Board has established an ongoing process for identifying, evaluating and managing the significant risks faced by the Group and this process includes enhancing the risk management and internal control system as and when there are changes to the business environment or regulatory guidelines. Management assists the Board in the implementation of the Board’s framework, policies and procedures on risk management and internal control by identifying and assessing the risks faced, and in the design, operation and monitoring of suitable internal controls to mitigate and control these risks.

The Board has received assurance from the Group Managing Director and the Chief Financial Officer that, to the best of their knowledge, the Group’s risk management and internal control system is operating adequately and effectively, in all material aspects, based on the risk management and internal control system of the Group.

RISK REPORTING STRUCTURE

RISK MANAGEMENT

The Board is aware that a risk management framework and sound system of internal control should be embedded in the operations of the Group and form part of its culture. This system should be capable of responding quickly to evolving risks to the business arising from factors within the Group and changes in the business environment. It should include procedures for reporting immediately to appropriate levels of management any significant control failings or weaknesses that are identified together with details of corrective action being taken.

STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

CONT'D

RISK MANAGEMENT *cont'd*

The Group has in place an on-going process for identifying, monitoring and managing significant risks that may affect the achievement of business objectives.

Management is continuously reviewing potential risk areas through on-going process for identifying emerging risks, including maturity and effectiveness of controls or treatments being applied to mitigate existing risks, and reported to Audit Committee on half yearly basis. Where a particular risk is identified, it will be monitored with counter measures taken to mitigate the risk, if possible.

Internal Review and Audit

The Board acknowledges the importance of the internal audit function and has outsourced to an independent advisory firm, Tricor Axcelasia Sdn Bhd. As part of its efforts in ensuring the internal controls are adequate and effective, the internal auditor will report directly to the Audit Committee. In addition, the internal audit function is responsible to conduct consistent and systematic review on the adequacy and integrity of internal control to provide reasonable but not absolute assurance to ensure risks are appropriately identified and mitigated.

An internal audit review report is submitted to the Audit Committee on a half-yearly basis. Criteria to be addressed in the report include risk identification and mitigation, corrective action plans and implementation of the plans by the Management.

The Senior Management Team is responsible for ensuring that the necessary corrective actions on reported weaknesses are made within the required time frame. Follow-up visits were carried out to ensure weaknesses identified have been or are being addressed. Periodic internal audit reports and status on follow up actions were tabled to the Audit Committee and Board during its quarterly meetings.

Review of the Statement by External Auditors

The external auditors have reviewed this Statement on Risk Management and Internal Control pursuant to the scope set out in Audit and Assurance Practice Guide 3 ("AAPG") 3 issued by the Malaysian Institute of Accountant ("MIA") for inclusion in the annual report for the year ended 31 March 2022. Based on their review, nothing has come to their attention that causes them to believe that the statement is not prepared, in all material respects, in accordance with the disclosures required by paragraph 41 and 42 of the Statement on Risk Management and Internal Control: Guidelines for Directors of Listed Issuers to be set out, nor is factually inaccurate.

AAPG 3 does not require the external auditors to consider whether the Directors' Statement on Risk Management and Internal Control cover all risks and controls, or to form an opinion on the adequacy and effectiveness of the Group's risk management and internal control system including the assessment and opinion by the Directors and management thereon.

CONCLUSION

The Board is of the view that the risk management and internal control system in place for the year under review and up to the date of issuance of the financial statements is adequate and effective to safeguard the shareholders' investment, the interests of customers, regulators and employees, and the Group's assets.

During the financial year under review, the Board is satisfied that no material losses, deficiencies or errors were arising from any inadequacy or failure of the Group's internal control system that will require disclosure in the Annual Report.

The Board will continue to take measures to strengthen the system of internal control maintained by the Group and ensure shareholders' investment and the Group's assets are consistently safeguarded.

This Statement on Risk Management and Internal Control was approved by the Board on 24 May 2022.

INDEPENDENT AUDITORS' REPORT

to the members of AYS Ventures Berhad

Report on the Audit of the Financial Statements

Opinion

We have audited the financial statements of AYS Ventures Berhad, which comprise the statements of financial position as at 31 March 2022 of the Group and of the Company, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 94 to 160.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 March 2022, and of their financial performance and their cash flows for the financial year then ended in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia.

Basis for Opinion

We conducted our audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Other Ethical Responsibilities

We are independent of the Group and of the Company in accordance with the By-Laws (on Professional Ethics, Conduct and Practice) of the Malaysian Institute of Accountants ("By-Laws") and the International Ethics Standards Board for Accountants' International Code of Ethics for Professional Accountants (including International Independence Standards) ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the Group and of the Company for the current financial year. These matters were addressed in the context of our audit of the financial statements of the Group and of the Company as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Valuation of inventories

Inventories are measured at the lower of cost and net realisable value ("NRV"). The Group estimates the NRV of inventories based on an assessment of expected sales prices. Changes in these assumptions could result in a material change in the carrying value of inventories and the financial performance of the Group.

Our audit procedures in relation to the valuation of inventories included:

- Testing the valuation of the inventories on a sample basis to ascertain that inventories are stated at the lower of cost and NRV.
- Understanding and reviewing the management's assessment of NRV of the inventories and tested a sample of inventories to sales subsequent to the financial year end.
- Examining the condition of selected inventories by attending physical inventories count at the reporting date.
- Considering the adequacy of the Group's disclosure in respect of the inventory's valuation.

The Group's disclosure regarding inventories is included in Notes 3.4 and 10 to the Financial Statements.

Key Audit Matters cont'd

Impairment of goodwill on consolidation

We focused on this area due to the magnitude of the goodwill from the acquisition of the foreign subsidiary which are subject to annual impairment assessment.

The impairment assessment performed by management involved significant degree of judgement in estimating the assumption on growth rate and discount rate used.

With respect to the appropriateness of the key assumptions used in the value in calculation, we performed the following procedures:

- Assessed the reliability of management's forecast by comparing their forecasted results against past trends of actual results.
- Checked that the growth rate did not exceed the growth rates for trading industry in which the cash generating unit ("CGU") operate.
- Checked that discount rate used by comparing the rate used to comparable industries and market in Singapore.
- Checked sensitivity analysis performed by management on the discount rate and earnings before interest, tax, depreciation and amortisation to determine whether reasonable change on these key assumptions would result in the carrying amounts of individual CGU to exceed their recoverable amounts.

The Group's disclosure regarding goodwill is included in Notes 3.1.3, 3.6 and 9 to the Financial Statements.

There is no key audit matter to be communicated in respect of the audit of the financial statements of the Company.

Information Other than the Financial Statements and Auditors' Report Thereon

The Directors of the Company are responsible for the other information. The other information comprises the information included in the annual report, but does not include the financial statements of the Group and of the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and of the Company does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements of the Group and of the Company, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements of the Group and of the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The Directors of the Company are responsible for the preparation of financial statements of the Group and of the Company that give a true and fair view in accordance with Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act 2016 in Malaysia. The Directors are also responsible for such internal control as the Directors determine is necessary to enable the preparation of financial statements of the Group and of the Company that are free from material misstatement, whether due to fraud or error.

Responsibilities of the Directors for the Financial Statements cont'd

In preparing the financial statements of the Group and of the Company, the Directors are responsible for assessing the Group's and the Company's ability to continue as going concerns, disclosing, as applicable, matters related to going concerns and using the going concerns basis of accounting unless the Directors either intend to liquidate the Group or the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and of the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and of the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Directors.
- Conclude on the appropriateness of the Directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's or the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and of the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group or the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and of the Company, including the disclosures, and whether the financial statements of the Group and of the Company represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the financial statements of the Group. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Auditors' Responsibilities for the Audit of the Financial Statements cont'd

We communicate with the Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Directors, we determine those matters that were of most significance in the audit of the financial statements of the Group and of the Company for the current financial year and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act 2016 in Malaysia, we report that the subsidiary of which we have not acted as auditors, are disclosed in Note 7 to the Financial Statements.

Other Matter

This report is made solely to the members of the Company, as a body, in accordance with Section 266 of the Companies Act 2016 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the content of this report.

NOTES TO THE FINANCIAL STATEMENTS

31 March 2022

1. GENERAL INFORMATION

The Company is a public limited liability company, incorporated and domiciled in Malaysia and is listed on the Main Market of Bursa Malaysia Securities Berhad.

The registered office of the Company is located at 802, 8th Floor, Block C, Kelana Square, 17, Jalan SS7/26, 47301 Petaling Jaya, Selangor Darul Ehsan and the principal place of business of the Company is located at Lot 6488, Jalan Haji Abdul Manan, 42100 Klang, Selangor Darul Ehsan.

The principal activity of the Company is investment holding. The principal activities of its subsidiaries are disclosed in Note 7 to the Financial Statements.

There have been no significant changes in the nature of these activities of the Company and its subsidiaries during the financial year.

The holding company is Chiew Ho Holding Sdn. Bhd., a company incorporated and domiciled in Malaysia.

The financial statements were authorised for issue by the Board of Directors in accordance with a resolution of the Directors passed on 3 June 2022.

2. BASIS OF PREPARATION

2.1 Statement of compliance

The financial statements of the Group and of the Company have been prepared in accordance with Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards ("IFRSs") and the requirements of the Companies Act 2016 in Malaysia.

2.2 Basis of measurement

The financial statements of the Group and of the Company are prepared under the historical cost convention, except for properties and derivative financial instruments that are measured at fair values at the end of each reporting year as indicated in the summary of significant accounting policies.

Historical cost is generally based on the fair value of the consideration given in exchange for goods and services.

Fair value is the price that would be received to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement is based on the presumption that the transaction to sell the asset or transfer the liability takes place either in the principal market for the asset or liability, or in the absence of a principal market, in the most advantageous market for the asset or liability. The principal or the most advantageous market must be accessible to by the Group.

The fair value of an asset or a liability is measured using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

A fair value measurement of a non-financial market takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The Group uses valuation techniques that are appropriate in the circumstances and for which sufficient data are available to measure fair value, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

NOTES TO THE FINANCIAL STATEMENTS

31 March 2022

CONT'D

2. BASIS OF PREPARATION *cont'd*

2.2 Basis of measurement *cont'd*

All assets and liabilities for which fair value is measured or disclosed in the financial statements are categorised within the fair value hierarchy, described as follows, based on the lowest level input that is significant to their fair value measurement as a whole:

- Level 1 - Quoted (unadjusted) market prices in active markets for identical assets or liabilities.
- Level 2 - Valuation techniques for which the lowest level input that is significant to their fair value measurement is directly or indirectly observable.
- Level 3 - Valuation techniques for which the lowest level input that is significant to their fair value measurement is unobservable.

For assets and liabilities that are recognised in the financial statements on a recurring basis, the Group determines whether transfers have occurred between levels in the hierarchy by re-assessing categorisation (based on the lowest level input that is significant to their fair value measurement as a whole) at the end of each reporting year.

For the purpose of fair value disclosures, the Group has determined classes of assets and liabilities on the basis of the nature, characteristics and risks of the asset or liability and the level of fair value hierarchy as explained above.

2.3 Functional and presentation currency

The financial statements are presented in Ringgit Malaysia ("RM"), which is the Group's and the Company's functional currency and all values are rounded to the nearest thousand except when otherwise stated.

2.4 Adoption of new standards/amendments/improvements to MFRSs

The Group and the Company have consistently applied the accounting policies set out in Note 3 to all years presented in these financial statements.

At the beginning of the current financial year, the Group and the Company adopted amendments/improvements to MFRSs which are mandatory for the current financial year beginning on or after 1 April 2021.

Initial application of the amendments/improvements to the standards did not have material impact to the financial statements.

2.5 Standard issued but not yet effective

The new and amended standards that are issued, but not yet effective, up to the date of issuance of the Group's and the Company's financial statements are disclosed below. The Group and the Company intend to adopt these new and amended standards and amendments, if applicable, when they become effective:

Amendments to MFRSs effective 1 January 2022:

Amendments to MFRS 3 [#]	Reference to the Conceptual Framework
Amendments to MFRS 116 [#]	Property, Plant and Equipment – Proceeds before Intended Use

* *Not applicable to the Group's operation*

Not applicable to the Company's operation

The initial application of the above accounting standards and amendments are not expected to have any material impacts to the financial statements of the Group and the Company.

2.6 Significant accounting estimates and judgements

Estimates and assumptions concerning the future and judgements are made in the preparation of the financial statements. They affect the application of the Group's and of the Company's accounting policies and reported amounts of assets, liabilities, income, expenses and disclosures made. Estimates and underlying assumptions are assessed on an on-going basis and are based on experience and relevant factors, including expectations of future events that are believed to be reasonable under the circumstances. The actual results may differ from the judgements, estimates and assumptions made by management and will seldom equal the estimated results.

2.6.1 Estimation uncertainty

Information about significant judgements, estimates and assumptions that have the most significant effect on recognition and measurement of assets, liabilities, income and expenses are discussed below.

Revaluation of property, plant and equipment

The Group measures its land and buildings at revalued amount with changes in fair value being recognised in other comprehensive income. The Group engages independent professional valuer to estimate the fair value.

The carrying amount of the land and buildings at the reporting date and the relevant revaluation basis are disclosed in Note 4 to the Financial Statements.

Fair value of investment properties

The Group measures its investment properties at fair value with changes in fair value being recognised in profit or loss. Significant judgement is required in the determination of fair value which may be derived based on different valuation methods. In making the judgement, the Group evaluates based on past experience and reliance on the work of specialists. The Group engages independent professional valuer to estimate the fair value.

The carrying amount of the investment properties at the reporting date and the relevant valuation basis are disclosed in Note 6 to the Financial Statements.

Useful lives of depreciable assets

Management estimates the useful lives of property, plant and equipment and right-of-use assets to be within 3 to 50 years and reviews the useful lives of depreciable assets at each reporting date. As at 31 March 2022, management assesses that the useful lives represent the expected utility of the assets to the Group. Actual results, however, may vary due to change in the expected level of usage and technological developments, resulting in the adjustment to the Group's assets.

The carrying amount of the Group's property, plant and equipment and right-of-use assets at the reporting date are disclosed in Notes 4 and 5 to the Financial Statements.

Inventories

Inventories are measured at the lower of cost and net realisable value. In estimating net realisable values, management takes into account the most reliable evidence available at the time the estimates are made. The Group's core businesses are subject to economical and technology changes which may cause selling prices to change rapidly and the Group's net profit to change.

The carrying amount of the Group's inventories at the reporting date are disclosed in Note 10 to the Financial Statements.

Impairment of non-financial assets

An impairment loss is recognised for the amount by which the asset's or cash generating unit's carrying amount exceeds its recoverable amount. To determine the recoverable amount, management estimates expected future cash flows from each asset or cash generating unit and determines a suitable interest rate in order to calculate the present value of those cash flows. In the process of measuring expected future cash flows, management makes assumptions about future operating results. The actual results may vary, and may cause significant adjustments to the Group's and the Company's assets within the next financial year.

In most cases, determining the applicable discount rate involves estimating the appropriate adjustments to market risk and the appropriate adjustments to asset-specific risk factors.

Further details of the carrying value, key assumptions applied in the impairment assessment of goodwill are disclosed in Note 9 to the Financial Statements.

Provision for expected credit losses ("ECLs") of trade receivables

The Group uses a provision matrix to calculate ECLs for trade receivables. The provision rates are based on days past due for groupings of various customer segments that have similar loss patterns such as customer type and rating and other forms of credit insurance.

The provision matrix is initially based on the Group's historical observed default rates. The Group will calibrate the matrix to adjust the historical credit loss experience with forward-looking information. For instance, if forecast economic conditions (i.e., gross domestic product) are expected to deteriorate over the next year which can lead to an increased number of defaults in the trading and manufacturing sectors, the historical default rates are adjusted. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analysed.

The assessment of the correlation between historical observed default rates, forecast economic conditions and ECLs is a significant estimate. The amount of ECLs is sensitive to changes in circumstances and of forecast economic conditions. The Group's historical credit loss experience and forecast of economic conditions may also not be representative of customer's actual default in the future. The information about ECLs on the Group's trade receivables is disclosed in Note 35 to the Financial Statements.

Income taxes

Significant judgement is involved in determining the Group-wide and Company-wide provision for income taxes. There are certain transactions and computations for which the ultimate tax determination is uncertain during the ordinary course of business. The Group and the Company recognise tax liabilities based on estimates of whether additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recognised, such difference will impact the income tax and deferred tax provisions in the period in which such determination is made.

Deferred tax assets

Deferred tax assets are recognised for all deductible temporary differences to the extent that it is probable that future taxable profits will be available against which all the deductible temporary differences can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based upon the likely timing and level of future taxable profits together with future tax planning strategies.

Leases - estimating the incremental borrowing rate

The Group cannot readily determine the interest rate implicit in the lease, therefore, it uses its incremental borrowing rate ("IBR") to measure lease liabilities. The IBR is the rate of interest that the Group would have to pay to borrow over a similar term, and with a similar security, the funds necessary to obtain an asset of a similar value to the right of use asset in a similar economic environment. The IBR therefore reflects when the Group 'would have to pay', which requires estimation when no observable rates are available or when the observable rates need to be adjusted to reflect the terms and conditions of the lease. The Group estimates the IBR using observable inputs (such as market interest rates) when available and is required to make certain entity-specific estimates.

2.6 Significant accounting estimates and judgements *cont'd*

2.6.2 Significant management judgement

The following are significant management judgements in applying the accounting policies of the Group and of the Company that have the most significant effects on the financial statements:

Classification between investment properties and owner-occupied properties

The Group determines whether a property qualifies as an investment property and has developed criteria in making that judgement. Investment property is a property held to earn rentals or for capital appreciation or both. Therefore, the Group considers whether a property generates cash flows largely independently of the other assets held by the Group.

Some properties comprise a portion that is held to earn rentals or for capital appreciation and another portion that is held for use in the production or supply of goods or services or for administrative purposes. The Group accounts for the portion separately if these portions could be sold separately (or leased out separately under finance lease). If the portions could not be sold separately, the property is an investment property only if an insignificant portion is held for use in the production or supply of goods or services or for administrative purposes. Judgement is made on an individual property basis to determine whether ancillary services are so significant that a property does not qualify as an investment property.

3. SIGNIFICANT ACCOUNTING POLICIES

The Group and the Company apply the significant accounting policies, as summarised below, consistently throughout all years presented in the financial statements, unless otherwise stated.

3.1 Consolidation

3.1.1 Subsidiaries

Subsidiaries are entities, including structured entities, controlled by the Company. Control exists when the Company is exposed, or has rights, to variable returns from its involvement with the entities and has the ability to affect those returns through its power over the entities. Potential voting rights are considered when assessing control only when such rights are substantive. Besides, the Company considers it has *de facto* power over an investee when, despite not having the majority of voting rights, it has the current ability to direct the activities of the investee that significantly affect the investee's return.

Investment in subsidiaries is stated at cost less any impairment losses in the Company's statement of financial position, unless the investment is held for sale or distribution.

Upon the disposal of investment in a subsidiary, the difference between the net disposal proceeds and its carrying amount is included in profit or loss.

3.1 Consolidation *cont'd*

3.1.2 Basis of consolidation

The Group's financial statements consolidate the audited financial statements of the Company and its subsidiaries, which have been prepared in accordance with the Group's accounting policies. Amounts reported in the financial statements of subsidiaries have been adjusted where necessary to ensure consistency with the accounting policies adopted by the Group. The financial statements of the Company and its subsidiaries are all drawn up to the same reporting date.

All intra-group balances, income and expenses and unrealised gains and losses resulting from intra-group transactions are eliminated in full in preparing the consolidated financial statements.

Subsidiaries are consolidated from the date on which control is transferred to the Group and are no longer consolidated from the date that control ceases.

Changes in the Company's ownership interest in subsidiaries that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiaries. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to the owners of the Company.

Merger method

Under the merger method of accounting, the results of subsidiaries are presented as if the merger had been affected throughout the current and previous years. The assets and liabilities combined are accounted for based on the carrying amounts from the perspective of the common control shareholder at the date of transfer. On consolidation, the cost of the merger is cancelled with the values of the shares received. Any resulting credit difference is classified as equity and regarded as a non-distributable reserve. Any resulting debit difference is adjusted against any suitable reserve. Any reserves which are attributable to share capital of the merged entities, to the extent that they have not been capitalised by a debit difference, are reclassified and presented as movement in other capital reserves. This is not applicable to AYS (FZ) Sdn. Bhd. and Steelaris Pte. Ltd. which were accounted for under the acquisition method.

3.1.3 Business combinations and goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred, measured at acquisition date fair value and the amount of any non-controlling interest in the acquiree. For each business combination, the Group elects whether it measures the non-controlling interest in the acquiree either at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition costs incurred are expensed and included in administrative expenses.

When the Group acquires a business, it assesses the financial assets and liabilities assumed for appropriate classification and designation in accordance with the contractual terms, economic circumstances and pertinent conditions as at the acquisition date. This includes the separation of embedded derivatives in host contracts by the acquiree.

3.1.3 Business combinations and goodwill *cont'd*

If the business combination is achieved in stages, the acquisition date fair value of the acquirer's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date through profit or loss.

Any contingent consideration to be transferred by the acquirer will be recognised at fair value at the acquisition date. Subsequent changes in the fair value of the contingent consideration which is deemed to be an asset or liability will be recognised in accordance with MFRS 9 either in profit or loss or as a change to other comprehensive income. If the contingent consideration is classified as equity, it will not be remeasured. Subsequent settlement is accounted for within equity. In instances where the contingent consideration does not fall within the scope of MFRS 9, it is measured in accordance with the appropriate MFRS.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interest over the net identifiable assets acquired and liabilities assumed. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognised in profit or loss.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Group's cash generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

Where goodwill forms part of a cash generating unit and part of the operation within that unit is disposed of, the goodwill associated with the operation disposed of is included in the carrying amount of the operation when determining the gain or loss on disposal of the operation. Goodwill disposed of in this circumstance is measured based on the relative values of the operation disposed of and the portion of the cash generating unit retained.

3.1.4 Loss of control

Upon the loss of control of a subsidiary, the Group derecognises the assets and liabilities of the subsidiary, any non-controlling interests and the other components of equity related to the subsidiary. Any surplus or deficit arising on the loss of control is recognised in profit or loss.

If the Group retains any interest in the previous subsidiary, then such interest is measured at fair value at the date that control is lost. Subsequently, it is accounted for as an equity accounted investee or as an available-for-sale financial asset depending on the level of influence retained.

3.1.5 Non-controlling interests

Non-controlling interests at the end of the reporting year, being the equity in a subsidiary not attributable directly or indirectly to the equity holders of the Company, are presented in the consolidated statements of financial position and statements of changes in equity within equity, separately from equity attributable to the owners of the Company. Non-controlling interests in the results of the Group are presented in the consolidated statements of profit or loss and other comprehensive income as an allocation of the profit or loss and the comprehensive income for the year between non-controlling interests and the owners of the Company.

Losses applicable to the non-controlling interests in a subsidiary is allocated to the non-controlling interests even if that results in a deficit balance.

3.1.6 Associates

Associates are entities in which the Group has significant influence, but no control, over their financial and operating policies.

The Group's investment in its associate is accounted for using the equity method. Under the equity method, investment in an associate is carried in the statements of financial position at cost plus post acquisition changes in the Group's share of net assets of the associate since the acquisition date. Goodwill relating to the associate is included in the carrying amount of the investment and is neither amortised nor individually tested for impairment.

The share of the result of an associate is reflected in profit or loss. Any change in other comprehensive income of those investees is presented as part of the Group's other comprehensive income. In addition, where there has been a change recognised directly in the equity of an associate, the Group recognises its share of any changes and discloses this, when applicable, in the statements of change in equity. Unrealised gains and losses resulting from transactions between the Group and the associate are eliminated to the extent of the interest in the associate.

The aggregate of the Group's share of profit or loss of an associate is shown on the face of the statement of profit or loss and other comprehensive income outside operating profit and represents profit or loss after tax and non-controlling interests in the subsidiaries of the associate.

When the Group's share of losses exceeds its interest in an associate, the carrying amount of that interest including any long-term investment is reduced to zero, and the recognition of further losses is discontinued except to the extent that the Group has an obligation or has made payments on behalf of the associate.

The financial statements of the associate is prepared as of the same reporting year as the Group. Where necessary, adjustments are made to bring the accounting policies of the associate in line with those of the Group.

After application of the equity method, the Group determines whether it is necessary to recognise an additional impairment loss on the Group's investments in its associate. The Group determines at each reporting date whether there is any objective evidence that the investment in the associate is impaired. If there is such evidence, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value, then recognises the amount in the "share of profit of investment accounted for using the equity method" in profit or loss.

Upon loss of significant influence over the associate, the Group measures and recognises any retained investment at its fair value. Any difference between the carrying amount of the associate upon loss of significant influence and the fair value of the retained investment and proceeds from disposal is recognised in profit or loss.

When the Group's interest in an associate decreases but does not result in a loss of significant influence, any retained interest is not re-measured. Any gain or loss arising from the decrease in interest is recognised in profit or loss. Any gains or loss previously recognised in other comprehensive income are also reclassified proportionately to the profit or loss if those gains or losses would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.

In the Company's separate financial statements, investment in associate is stated at cost less impairment losses. On disposal of such investment, the difference between net disposal proceed and its carrying amount is included in profit or loss.

3.2 Property, plant and equipment

Property, plant and equipment except for land and buildings are initially stated at cost. The cost of an item of property, plant and equipment is recognised as an asset if, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Cost includes expenditures that are directly attributable to the acquisition of the assets and any other costs directly attributable to bring the assets to working condition for their intended use, cost of replacing component parts of the assets and the present value of the expected cost for the decommissioning of the assets after their use.

Land and buildings are measured at fair value less accumulated depreciation and impairment losses, if any recognised after the date of revaluation. Valuations are performed with sufficient regularity to ensure that the carrying amount does not differ materially from the fair value of the land and buildings at the reporting date.

At the date of revaluation, accumulated depreciation, if any, is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. Any revaluation surplus arising upon appraisal of land and buildings are recognised in other comprehensive income and credited to the 'revaluation reserves' in equity. To the extent that any revaluation decreases or impairment loss has previously been recognised in profit or loss, a revaluation increase is credited to profit or loss with the remaining part of the increase recognised in other comprehensive income. Downward revaluations of land and buildings are recognised upon appraisal or impairment testing, with the decrease being charged to other comprehensive income to the extent of any revaluation surplus recognised in equity relating to this asset and any remaining decrease recognised in profit or loss. Any revaluation surplus remaining in equity on disposal of the asset is transferred to retained earnings.

All other property, plant and equipment are subsequently stated at cost less accumulated depreciation and less any impairment losses. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognises such cost as individual assets with specific useful lives and depreciation, respectively. All other repair and maintenance costs are recognised in profit or loss as incurred.

3.2 Property, plant and equipment *cont'd*

Depreciation is recognised on the straight-line method in order to write off the cost of each asset over its estimated useful lives. Freehold land is not depreciated, other property, plant and equipment are depreciated based on the estimated useful lives of the assets as follows:

Buildings	2% - 4%
Machinery and equipment	10% - 33.3%
Motor vehicles and others	10% - 20%

Restoration cost relating to an item of the property, plant and equipment is capitalised only if such expenditure is expected to increase the future benefits from the existing property, plant and equipment beyond its previously assessed standard of performance.

The residual values, useful lives and depreciation method are reviewed for impairment when events or changes in circumstances indicate that the carrying amount may not be recoverable, or at least annually to ensure that the amount, method and rate of depreciation are consistent with previous estimates and the expected pattern of consumption of the future economic benefits embodied in the items of property, plant and equipment.

Property, plant and equipment are derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses arising on the disposal of property, plant and equipment are determined as the difference between the disposal proceeds and the carrying amounts of the assets and are recognised in profit or loss in the financial year in which such asset is derecognised.

3.3 Investment properties

Investment properties are properties which are owned or held under a leasehold interest to earn rental income or for capital appreciation or for both, but not for sale in the ordinary course of business, use in the production or supply of goods or services or for administrative purposes.

Investment properties are initially measured at cost, including transaction cost. Cost includes expenditure that directly attributable to the acquisition of the investment properties, the cost of self-constructed investment property includes the cost of materials and direct labour, any other costs directly attributable to bringing the investment property to working condition for its intended use and capitalised borrowing costs. Right-of-use asset held under a lease contract that meets the definition of investment property is initially measured similarly as other right-of-use assets.

Subsequent to initial recognition, investment properties are measured at fair values and are included in the statements of financial position at their open market values. Any gain or loss resulting from either a change in the fair value or the sale of an investment property is immediately recognised in profit or loss in the period in which they arise. The fair values are determined by independent professional valuers with sufficient experience with respect to both the location and the nature of the investment properties and supported by market evidence.

Investment properties are derecognised when either they are disposed off or when they are permanently withdrawn from use and no future economic benefit is expected from the disposal. Any gain or loss on the retirement or disposal of an investment property is recognised in the profit or loss in the financial year of retirement or disposal.

Transfers are made to or from investment property only when there is a change in use. For a transfer from investment property to owner-occupied property, the deemed cost for subsequent accounting is the fair value at the date of change. If owner-occupied property becomes an investment property, the Company accounts for such property in accordance with the policy stated under property, plant and equipment up to the date of change.

3.4 Inventories

Inventories are stated at the lower of cost and net realisable value with weighted average cost being the main basis.

Cost of raw materials comprises the cost of purchase plus the incidental cost of bringing the inventories to their present location and condition whereas the cost of goods in transit comprises only the cost of purchase.

Cost of work-in-progress and finished goods include raw materials, direct labours and appropriate proportion of production overheads.

Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sales.

3.5 Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity.

3.5.1 Financial assets

Initial recognition and measurement

Financial assets are classified, at initial recognition, as subsequently measured at amortised cost, fair value through other comprehensive income ("OCI"), and fair value through profit or loss.

The classification of financial assets at initial recognition depends on the financial asset's contractual cash flow characteristics and the Group's business model for managing them. With the exception of trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient, the Group initially measures a financial asset at its fair value plus, in the case of a financial asset not at fair value through profit or loss, transaction costs. Trade receivables that do not contain a significant financing component or for which the Group has applied the practical expedient are measured at the transaction price.

In order for a financial asset to be classified and measured at amortised cost or fair value through OCI, it needs to give rise to cash flows that are 'solely payments of principal and interest ("SPPI")' on the principal amount outstanding. This assessment is referred to as the SPPI test and is performed at an instrument level. Financial assets with cash flows that are not SPPI are classified and measured at fair value through profit or loss, irrespective of the business model.

The Group's business model for managing financial assets refers to how it manages its financial assets in order to generate cash flows. The business model determines whether cash flows will result from collecting contractual cash flows, selling the financial assets, or both. Financial assets classified and measured at amortised cost are held within a business model with the objective to hold financial assets in order to collect contractual cash flows while financial assets classified and measured at fair value through OCI are held within a business model with the objective of both holding to collect contractual cash flows and selling.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Group commits to purchase or sell the asset.

Subsequent measurement

For purposes of subsequent measurement, financial assets are classified in four categories:

- Financial assets at amortised cost (debt instruments);
- Financial assets at fair value through OCI with recycling of cumulative gains and losses (debt instruments);
- Financial assets designated at fair value through OCI with no recycling of cumulative gains and losses upon derecognition (equity instruments); and
- Financial assets at fair value through profit or loss.

At the reporting date, the Group and the Company carry financial assets at amortised cost and financial assets at fair value through profit or loss on their statements of financial position.

Financial assets at amortised cost

Financial assets at amortised cost are subsequently measured using the effective interest rate ("EIR") method and are subject to impairment. Gains and losses are recognised in profit or loss when the asset is derecognised, modified or impaired. The Group's and the Company's financial assets at amortised cost includes trade and other receivables, amount due from subsidiaries, cash and cash equivalents.

Financial assets at fair value through profit or loss

The Company's financial assets at fair value through profit or loss include derivatives that are measured in accordance with the accounting policy set out in Note 3.5.4 to the financial statements.

Derecognition

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognised (i.e., removed from the Group's consolidated statement of financial position) when:

- The rights to receive cash flows from the asset have expired, or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates if, and to what extent, it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the Group continues to recognise the transferred asset to the extent of its continuing involvement. In that case, the Group also recognises an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the Group has retained. Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the Group could be required to repay.

Impairment

The Group and the Company recognise an allowance for ECLs on financial assets measured at amortised cost, debt investments measured at fair value through other comprehensive income, contract assets, and lease receivables. Expected credit losses are a probability-weighted estimate of credit losses.

The Group and the Company measure loss allowances at an amount equal to lifetime expected credit loss, except for debt securities that are determined to have low credit risk at the reporting date, cash and bank balance and other debt securities for which credit risk has not increased significantly since initial recognition, which are measured at 12-month expected credit loss. Loss allowances for trade receivables, contract assets and lease receivables are always measured at an amount equal to lifetime expected credit loss.

When determining whether the credit risk of a financial asset has increased significantly since initial recognition and when estimating expected credit loss, the Group and the Company consider reasonable and supportable information that is relevant and available without undue cost or effort. This includes both quantitative and qualitative information and analysis, based on the Group's historical experience and informed credit assessment and including forward-looking information, where available.

Lifetime expected credit losses are the expected credit losses that result from all possible default events over the expected life of the asset, while 12-month expected credit losses are the portion of expected credit losses that result from default events that are possible within the 12 months after the reporting date. The maximum period considered when estimating expected credit losses is the maximum contractual period over which the Group and the Company are exposed to credit risk.

The Group and the Company estimate the expected credit losses on trade receivables using a provision matrix with reference to historical credit loss experience.

An impairment loss in respect of financial assets measured at amortised cost is recognised in profit or loss and the carrying amount of the asset is reduced through the use of an allowance account.

At each reporting date, the Group and the Company assess whether the financial assets carried at amortised cost and debt securities at fair value through other comprehensive income are credit-impaired. A financial asset is credit impaired when one or more events that have a detrimental impact on the estimated future cash flows of the financial asset have occurred.

The gross carrying amount of a financial asset is written off (either partially or full) to the extent that there is no realistic prospect of recovery. This is generally the case when the Group and the Company determine that the debtor does not have assets or sources of income that could generate sufficient cash flows to repay the amounts subject to the write-off. However, financial assets that are written off could still be subject to enforcement activities in order to comply with the Group's or the Company's procedures for recovery amounts due.

3.5.2 Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables, or as derivatives designated as hedging instruments in an effective hedge, as appropriate.

All financial liabilities are recognised initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Group's and the Company's financial liabilities include trade and other payables, bank borrowings and lease liabilities.

Subsequent measurement

For purposes of subsequent measurement, financial liabilities are classified in two categories:

- Financial liabilities at fair value through profit or loss
- Financial liabilities at amortised cost

At the reporting date, the Group and the Company carry only financial liabilities at amortised cost on their statements of financial position.

Financial liabilities at amortised cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the EIR method. Gains and losses are recognised in profit or loss when the liabilities are derecognised as well as through the EIR amortisation process. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortisation is included as finance costs in the statements of profit or loss. This category generally applies to interest-bearing loans and borrowings.

Derecognition

A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expired. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognised in the statement of profit or loss.

3.5.3 Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the consolidated statement of financial position if there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, to realise the assets and settle the liabilities simultaneously.

3.5 Financial instruments *cont'd*

3.5.4 Derivative financial instruments

The Company enters into derivative financial instruments such as forward foreign currency contracts to manage its exposure to foreign currency risks.

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently re-measured at their fair value at the end of each reporting year. The resulting gain or loss is recognised in profit or loss immediately.

A derivative with a positive fair value is recognised as a financial asset whereas a derivative with a negative fair value is recognised as a financial liability.

3.5.5 Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

Financial guarantees issued are initially measured at fair value. Subsequently, they are measured at higher of:

- The amount determined in accordance with the expected credit losses model under MFRS 9 Financial Instruments; and
- The amount initially recognised less, when appropriate, the cumulative amount of income recognised in accordance to the principles of MFRS 15 Revenue from Contracts with Customers.

As at the reporting date, no values were placed on corporate guarantees provided by the Group and the Company as the Directors of the Company regard the value of the credit enhancement provided by the corporate guarantees as minimal.

3.6 Impairment of non-financial assets

The Group assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Group estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's ("CGU") fair value less costs to sell and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs to sell, recent market transactions are taken into account, if available. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded subsidiaries or other available fair value indicators.

NOTES TO THE FINANCIAL STATEMENTS

31 March 2022

CONT'D

3. SIGNIFICANT ACCOUNTING POLICIES *cont'd*

3.6 Impairment of non-financial assets *cont'd*

The Group bases its impairment calculation on detailed budgets and forecast calculations which are prepared separately for each of the Group's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations are generally covering a period of five years. For longer periods, a long term growth rate is calculated and applied to project future cash flows after the fifth year.

Impairment losses of continuing operations, including impairment on inventories, are recognised in the profit or loss in those expense categories consistent with the function of the impaired asset, except for a property previously revalued where the revaluation was taken to other comprehensive income. In this case, the impairment is also recognised in other comprehensive income up to the amount of any previous revaluation.

For assets excluding goodwill, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the Group estimates the asset's or cash-generating unit's recoverable amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognised. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for asset in prior years. Such reversal is recognised in the profit or loss unless the asset is carried at a revalued amount, in which case the reversal is treated as a revaluation increase.

Goodwill is tested for impairment annually as at the end of each reporting period, and when circumstances indicate that the carrying value may be impaired.

Impairment is determined for goodwill by assessing the recoverable amount of each cash-generating unit (or group of cash-generating units) to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than their carrying amount, an impairment loss is recognised. Impairment losses relating to goodwill cannot be reversed in future periods.

3.7 Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, bank balances and short term demand deposits which are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value.

For the purpose of the financial position, cash and cash equivalents restricted to be used to settle a liability of 12 months or more after the end of the reporting year are classified as non-current assets.

3.8 Leases

The Group assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration.

Group as lessee

The Group as a lessee applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Group recognises lease liabilities to make lease payments and right of use assets representing the right to use the underlying assets.

3. SIGNIFICANT ACCOUNTING POLICIES *cont'd*

3.8 Leases *cont'd*

Group as lessee *cont'd*

3.8.1 Right-of-use assets

The Group recognises right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognised, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets, as follows:

Hostel	1 to 2 years
Office buildings	3 years
Warehouse	25 years
Motor vehicles	5 years

If ownership of the leased asset transfers to the Group at the end of the lease term or the cost reflects the exercise of a purchase option, depreciation is calculated using the estimated useful life of the asset.

The right-of-use assets is also subject to impairment. The accounting policies for impairment of non-financial assets is set out in Note 3.6 to the Financial Statements.

3.8.2 Lease liabilities

At the commencement date of the lease, the Group recognises lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in-substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Group and payments of penalties for terminating the lease, if the lease term reflects the Group exercising the option to terminate. Variable lease payments that do not depend on an index or a rate are recognised as expenses (unless they are incurred to produce inventories) in the period in which the event or condition that triggers the payment occurs.

In calculating the present value of lease payments, the Group uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

3.8.3 Short-term leases and leases of low-value assets

The Group applies the short-term lease recognition exemption to its short-term leases of machinery and equipment (i.e., those leases that have a lease term of 12 months or less from the commencement date and do not contain a purchase option). It also applies the lease of low-value assets recognition exemption to leases of office equipment that are considered to be low value.

Lease payments on short-term leases and leases of low-value assets are recognised as expense on a straight-line basis over the lease term.

Group as lessor

Leases in which the Group does not transfer substantially all the risks and rewards incidental to ownership of an asset are classified as operating leases. Rental income arising is accounted for on a straight-line basis over the lease terms and is included in revenue in the statement of profit or loss due to its operating nature. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised over the lease term on the same basis as rental income. Contingent rents are recognised as revenue in the period in which they are earned.

3.9 Borrowing costs

Borrowing costs that are not directly attributable to the acquisition, construction or production of a qualifying asset are recognised in profit or loss using the effective interest rate method.

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are capitalised as part of the cost of those assets.

The capitalisation of borrowing costs as part of the cost of a qualifying asset commences when expenditure for the asset is being incurred, borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalisation of borrowing costs is suspended or ceased when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are interrupted or completed.

All other borrowing costs are expensed in the year in which they incurred. Borrowing costs consist of interest and other costs that the Group incurred in connection with the borrowing of funds.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalisation.

3.10 Equity instrument

An equity instrument is any contract that evidences a residual interest in the assets of the Group and of the Company after deducting all of its liabilities. Ordinary shares are equity instruments.

Retained earnings include all current year's profit and prior years' retained earnings.

Foreign currency translation differences arising on the translation of the Group's foreign entities are included in the exchange translation reserve.

3.10 Equity instrument *cont'd*

Dividends on ordinary shares are accounted for in shareholder's equity as an appropriation of retained earnings and recognised as a liability in the period in which they are declared.

All transactions with the owners of the Company are recorded separately within equity.

The revaluation reserves within equity comprise gains arising from the revaluation of land and buildings.

3.11 Foreign currency translation

The Group's consolidated financial statements are presented in RM, which is also the Company's functional currency.

3.11.1 Foreign currency transactions and balances

Transactions in foreign currencies are initially recorded at the functional currency rates prevailing at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are retranslated at the functional currency spot rate of exchange ruling at the reporting date.

All differences are taken to the profit or loss with the exception of all monetary items that forms part of a net investment in a foreign operation. These are recognised in other comprehensive income until the disposal of the net investment, at which time they are reclassified to profit or loss. Tax charges and credits attributable to exchange differences on those monetary items are also recorded in other comprehensive income.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value is determined. The gain or loss arising in translation of non-monetary items is recognised in line with the gain or loss of the item that gave rise to the translation difference (translation differences on items whose gain or loss is recognised in other comprehensive income or profit or loss is also recognised in other comprehensive income or profit or loss respectively).

3.11.2 Foreign operations

The assets and liabilities of operations denominated in functional currencies other than RM, including goodwill and fair value adjustments arising on acquisition, are translated to RM at exchange rates at the end of the reporting period which are treated as assets and liabilities of the Company. The income and expenses of foreign operations are translated to RM at exchange rates at the date of the transactions.

Foreign currency differences are recognised in other comprehensive income and accumulated in the foreign currency translation reserve in equity. However, if the operation is a non-wholly-owned subsidiary, then the relevant proportionate share of the translation difference is allocated to the non-controlling interests. When a foreign operation is disposed of such that control, significant influence or joint control is lost, the cumulative amount in the foreign currency translation reserve related to that foreign operation is reclassified to profit or loss as part of the profit or loss on disposal.

When the Group disposes of only part of its interest in a subsidiary that includes a foreign operation, the relevant proportion of the cumulative amount is reattributed to non-controlling interests. When the Group disposes of only part of its investment in an associate or joint venture that includes a foreign operation while retaining significant influence or joint control, the relevant proportion of the cumulative amount is reclassified to profit or loss.

3.12 Revenue and other income

3.12.1 Revenue

Revenue is recognised when or as a performance obligation in the contract with the customer is satisfied, i.e. when the “control” of the goods or services underlying the particular performance obligation is transferred to the customer.

A performance obligation is a promise to transfer a distinct goods or services (or a series of distinct goods or services that are substantially the same and that have the same pattern of transfer) to the customer that is explicitly stated in the contract and implied in the Group’s customary business practices.

Revenue is measured based on the consideration specified in a contract with a customer in exchange for transferring goods or services to a customer, excluding amounts collected on behalf of third parties. The Group recognises revenue when (or as) it transfers control over a product or service to customer. An asset is transferred when (or as) the customer obtains control of the asset.

The Group transfers control of a good or service at a point in time unless one of the following overtime criteria is met:

- (a) the customer simultaneously receives and consumes the benefits provided as the Group performs;
- (b) the Group’s performance creates or enhances an asset that the customer controls as the asset is created or enhanced; or
- (c) the Group’s performance does not create an asset with an alternative use and the Group has an enforceable right to payment for performance completed to date.

The Group is primarily engaged in the trading and manufacturing of engineering steel products and building materials. Revenue of the Group is recognised at a point in time when it transfers control of the products to the customers.

3.12.2 Finance income

Finance income is recognised as it accrues using the effective interest method in profit or loss.

3.12.3 Rental income

Rental income is accounted for on a straight-line basis over the lease terms. The aggregate costs of incentives provided to lessees are recognised as a reduction of rental income over the lease term on a straight-line basis.

3.12.4 Dividend income

Dividend income is recognised when the Company's right to receive such payment is established.

3.13 Government grants

Government grants are not recognised until there is reasonable assurance that the Group will comply with the conditions attaching to them and that the grants will be received.

Government grants are recognised in profit or loss on a systematic basis over the period in which the Group recognises as expenses the related costs for which the grants are intended to compensate.

Government grants that are receivable as compensation for expenses already incurred with no future related costs are recognised in profit or loss in the period in which they become receivable.

3.14 Employees benefits

3.14.1 Short-term employment benefits

Wages, salaries, bonuses and social security contributions are recognised as expenses in the year in which the associated services are rendered by the employees of the Group and of the Company. Short-term accumulating compensated absences such as paid annual leave are recognised when services are rendered by the employees that increase their entitlement to future compensated absences, and short term non-accumulating compensated absences such as sick leave are recognised when the absences occurred.

3.14.2 Defined contribution plans

Defined contribution plans are post-employment benefit plans under which the Group and the Company pay fixed contributions into separate entities of funds and will have no legal or constructive obligations to pay further contribution if any of the funds do not hold sufficient assets to pay all employees benefits relating to employees services in the current and preceding financial years.

Such contributions are recognised as expenses in the profit or loss as incurred. As required by law, companies in Malaysia make such contributions to the Employees Provident Fund ("EPF"). Some of the Group's foreign subsidiary also make contributions to the respective country's statutory pension schemes.

3.15 Tax expenses

Tax expenses comprise current tax and deferred tax. Current tax and deferred tax are recognised in profit or loss except to the extent that it relates to a business combination or items recognised directly in equity or other comprehensive income.

3.15.1 Current tax

Current tax is the expected amount of income taxes payable in respect of the taxable profit for the financial year and is measured using the tax rates that have been enacted or substantively enacted by the end of the reporting year and any adjustment to tax payable in respect of previous years.

Current tax is recognised in the statements of financial position as a liability (or an asset) to the extent that it is unpaid (or refundable).

3.15.2 Deferred tax

Deferred tax is recognised using the liability method, providing for temporary differences between the carrying amounts of assets and liabilities in the statements of financial position and their tax bases. Deferred tax is not recognised for the temporary differences arising from the initial recognition of goodwill, the initial recognition of assets and liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to be applied to the temporary differences when they reverse, based on the laws that have been enacted or substantively enacted by the end of the reporting year.

The amount of deferred tax recognised is measured based on the expected manner of realisation or settlement of the carrying amount of the assets and liabilities, except for land and buildings carried at revalued amounts and investment properties carried at fair value. Where land and buildings carried at their revalued amounts and investment properties carried at their fair values in accordance with the accounting policy set out in Notes 3.2 and 3.3 to the Financial Statements respectively, the amount of deferred tax recognised is measured using the tax rates that would apply on sale of those assets at their carrying values at the reporting date unless the property is depreciable and is held with the objective to consume substantially all of the economic benefits embodied in the property over time, rather than through sale.

Deferred tax assets and liabilities are offset if there is a legally enforceable right to offset current tax liabilities and assets, and they relate to income taxes levied by the same tax authority on the same taxable entity, or on different tax entities, but they intend to settle current tax liabilities and assets on a net basis or their tax assets and liabilities will be realised simultaneously.

A deferred tax asset is recognised to the extent that it is probable that future taxable profits will be available against which the temporary differences can be utilised. Deferred tax assets are reviewed at the end of each reporting year and are reduced to the extent that it is no longer probable that the related tax benefit will be realised.

3.16 Operating segments

An operating segment is a component of the Group that engages in business activities from which it may earn revenues and incur expenses, including revenue and expenses that relate to transactions with any of the Group's other components. All reporting segments' operating results are reviewed regularly by the chief operating decision maker to make decisions about resources to be allocated to the segment and to assess its performance, and for which discrete financial information is available.

3.17 Earnings per share

The Group present basis and diluted earnings per share ("EPS") data for its ordinary shares.

Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group based on the weighted average number of ordinary shares in issue during the period.

Diluted EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group based on the weighted average number of shares in issue, for the effects of all dilutive potential ordinary shares during the period.

(a) Impairment losses recognised in respect of property, plant and equipment are attributable to the assets' carrying amount greater than anticipated wear and tear. Those assets have been impaired in full.

(b) Revaluation of land and buildings

The Group's land and buildings are stated at their revalued amounts, being the fair values at the date of revaluation, less any subsequent depreciation and subsequent accumulated impairment losses, if any.

Land and buildings were revalued in the financial year 2018 by First Pacific Valuers Property Consultants Sdn. Bhd., an independent professional valuer.

The sales comparison method was adopted in arriving at the market value of the land and buildings. In estimating the fair value of the properties, the highest and the best use of the properties is their current use. There have been no changes to the valuation technique during the year.

The revaluation surplus net of applicable deferred tax was credited to other comprehensive income and is shown as revaluation reserves under the equity.

Land and buildings at valuation are categorised as Level 2 fair values.

Level 2 fair values

Level 2 fair values of land and buildings have been generally derived using the sales comparison approach. Sales price of comparable properties in close proximity are adjusted for differences in key attributes such as property size. The most significant input into this valuation approach is price per square foot of comparable properties.

Had the land and buildings of the Group been stated at historical cost less accumulated depreciation, the net carrying amount would have been RM72,399,000 (2021: RM30,615,000).

The Group has assessed the recoverable amounts of goodwill allocated and determined that no impairment is required. The recoverable amounts of the cash generating units are determined using the value-in-use approach and this is derived from the present value of future cash flows from the operating segments computed based on projections of financial budgets approved by management covering a period of 5 years. The key assumptions used in determination of the recoverable amounts are as follows:-

	Growth Rate		Discount Rate	
	2022 %	2021 %	2022 %	2021 %
Steelaris	3.00	2.00	7.00	8.03

35. FINANCIAL INSTRUMENTS *cont'd*

35.2 Financial risk management objectives and policies

The Group and the Company are exposed to financial risks arising from their operations and the use of financial instruments. Financial risk management policies are established to ensure that adequate resources are available for the development of the Group's and of the Company's business whilst managing their credit risk, liquidity risk, foreign currency risk and interest rate risk. The Group and the Company operate within clearly defined policies and procedures that are approved by the Board of Directors to ensure the effectiveness of the risk management process.

The main areas of financial risks faced by the Group and the Company and the policies in respect of the major areas of treasury activity are set out as follows:

(a) Credit risk

Credit risk is the risk of a financial loss to the Group if a customer or counter party to a financial instrument fails to meet its contractual obligations. It is the Group's and the Company's policy to enter into financial instrument with a diversity of creditworthy counterparties. The Group and the Company do not expect to incur material credit losses of its financial assets or other financial instruments.

Concentration of credit risk exists when changes in economic, industry and geographical factors similarly affect the group of counterparties whose aggregate credit exposure is significant in relation to the Group's and the Company's total credit exposure.

It is the Group's and the Company's policies that all customers who wish to trade on credit terms are subject to credit verification procedures. The Group and the Company do not offer credit terms without the approval of the head of credit control.

Following are the areas where the Group and the Company exposed to credit risk:

(i) Receivables

The Group's and the Company's exposure to credit risk are influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk associated with the industry and country in which customers operate.

The risk management committee has established a credit policy under which each new customer is analysed individually for creditworthiness before the Group's and the Company's standard payment and delivery terms and conditions are offered. The Group's and the Company's review includes external rating, if they are available, financial statements, credit agency information, industry information and in some cases bank references. Sale limits are established for each customer and reviewed quarterly. Any sales exceeding those limits require approval from the risk management committee.

An impairment analysis is performed at each reporting date using a provision matrix to measure expected credit losses. The provision rates are based on days past due for groupings of various customer segments with similar loss patterns (i.e., by payment record and customer relationship). The calculation reflects the probability-weighted outcome, the time value of money and reasonable and supportable information that is available at the reporting date about past events, current conditions and forecasts of future economic conditions.

Following are the areas where the Group and the Company exposed to credit risk: *cont'd*

(ii) Intercompanies balances

The maximum exposure to credit risk is represented by their carrying amounts in the statements of financial position.

The Company provides unsecured advances to subsidiaries and monitors the results of the subsidiaries regularly.

At the end of the reporting year, there was no indication that the advances to subsidiaries are not recoverable.

(iii) Financial instruments and cash deposits

Credit risk from balances with banks and financial institutions is managed by the Group's treasury department in accordance with the Group's policy. Investments of surplus funds are made only with approved counterparties.

(iv) Financial guarantees

The maximum exposure to credit risk is RM558,254,000 (2021: RM501,162,000) in respect of corporate guarantees given to financial institution for banking facilities granted to and utilised by the subsidiaries as at the end of the reporting year.

The maximum exposure to credit risk is RM27,800,000 (2021: RM29,550,000) in respect of corporate guarantees given to suppliers of subsidiaries as at the end of reporting year.

The Company monitors on an ongoing basis the results and repayments made by the subsidiaries. At the reporting date, there was no indication that the subsidiaries would default on repayment.

(b) Liquidity risk

Liquidity risk is the risk that the Group and the Company will not be able to meet their financial obligations as and when they fall due.

In managing its exposures to liquidity risk arises principally from its various payables, loans and borrowings, the Group and the Company maintain a level of cash and cash equivalents and bank facilities deemed adequate by the management to ensure, as far as possible, that they will have sufficient liquidity to meet its liabilities as and when they fall due.

The Group and the Company aim at maintaining a balance of sufficient cash and deposits and flexibility in funding by keeping diverse sources of committed and uncommitted credit facilities from various banks.

35.2 Financial risk management objectives and policies *cont'd*

The main areas of financial risks faced by the Group and the Company and the policies in respect of the major areas of treasury activity are set out as follows: *cont'd*

(c) Foreign currency risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group is exposed to foreign currency risk on sales, purchases, cash and bank balances and borrowings that are denominated in a currency other than the functional currency of the Group. The currencies giving rise to this risk are primarily U.S. Dollar ("USD"), Singapore Dollar ("SGD"), Australian Dollar ("AUD") and Euro ("EUR"). The Group uses forward exchange contracts to hedge its foreign currency risk when necessary. All of the forward exchange contracts have maturities of less than one year after the end of the reporting year.

The Group's exposure to foreign currency risk, based on carrying amounts as at the end of the reporting period was:

Group	Denominated in			
	USD RM'000	SGD RM'000	AUD RM'000	EUR RM'000
<u>2022</u>				
Derivative financial instruments	64	19	-	-

35.2 Financial risk management objectives and policies *cont'd*

The main areas of financial risks faced by the Group and the Company and the policies in respect of the major areas of treasury activity are set out as follows: *cont'd*

(c) Foreign currency risk *cont'd*

The following table demonstrates the sensitivity of the Group's profit for the financial year to a reasonably possible change in the USD and SGD exchange rates against the respective functional currencies of the Group entities, with all other variables held constant.

	Profit for the financial year RM'000	Equity RM'000
<u>2022</u>		
USD/RM		
- Strengthened 3.84%	(4,944)	(4,944)
- Weakened 3.84%	4,944	4,944
SGD/RM		
- Strengthened 1.64%	373	373
- Weakened 1.64%	(373)	(373)
<u>2021</u>		
USD/RM		
- Strengthened 5.12%	(1,397)	(1,397)
- Weakened 5.12%	1,397	1,397
SGD/RM		
- Strengthened 2.74%	(140)	(140)
- Weakened 2.74%	140	140

As at the reporting date, the Group determined the effects of sensitivity if the Group's profit and total equity for the financial year to a reasonably possible change in the AUD and EUR exchange rate to be immaterial.

(d) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates.

Fixed rate borrowing is exposed to a risk of change in its fair value due to changes in interest rates. Variable rate borrowing is exposed to a risk of change in cash flows due to changes in interest rates. Short term receivables and payables are not significantly exposed to interest rate risk.

The Group's interest rate management objective is to manage the interest expenses consistent with maintaining an acceptable level of exposure to interest rate fluctuation. In order to achieve this objective, the Group targets a mix of fixed and floating debt based on assessment of its existing exposure and desired interest rate profile.

The main areas of financial risks faced by the Group and the Company and the policies in respect of the major areas of treasury activity are set out as follows: *cont'd*

(d) Interest rate risk *cont'd*

The interest rate profile of the Group's significant interest bearing financial instruments, based on carrying amounts as at the end of the reporting year is as follows:

	Group	
	2022	2021
	RM'000	RM'000
Fixed rate instruments		
Other receivables	-	2,928
Short term deposits with licensed banks	9,870	7,500

	(441,191)	(293,218)
	Company	
	2022	2021
	RM'000	RM'000
Fixed rate instrument		
Amount due from subsidiaries	37,746	-

Cash flow sensitivity analysis for floating rate instrument:

The following table illustrates the sensitivity of profit to a reasonably possible change in interest rates of 40 (2021: 50) basis points ("bp"). These changes are considered to be reasonably possible based on observation of current market conditions. The calculations are based on a change in the average market interest rate for each period, and the financial instruments held at each reporting date that are sensitive to changes in interest rates. All other variables are held constant.

If the interest rates had strengthened, then the impact would be as below:

	2022	2021
	RM'000	RM'000
Effect on profit/total equity for the financial year	(1,765)	(1,466)

If the interest rate had weakened then the impact to profit or loss/equity for financial year would be the opposite effect.

38. SIGNIFICANT EVENTS DURING THE FINANCIAL YEAR AND AFTER THE REPORTING DATE

(a) Coronavirus Disease 2019 ("COVID-19")

The World Health Organisation declared the COVID-19 outbreak as a pandemic on 11 March 2020. The Government of Malaysia imposed a Movement Control Order ("MCO") on 18 March 2020 and subsequently imposed various phases of the MCO and total lockdowns with recovery phases.

The Group and the Company have performed assessments on the overall impact of the situation on the Group's and the Company's operations and financial implications, including the recoverability of the carrying amount of assets and subsequent measurement of assets and liabilities, and concluded that there is no material adverse effect on the financial statements of the Group and of the Company for the financial year ended 31 March 2022. Given the fluidity of the situation, the Group and the Company will continuously monitor the impact of the COVID-19 and take appropriate and timely measures to minimise the impact of the outbreak on the Group's and the Company's operations.

(b) Acquisition of freehold land

On 16 December 2020, Ann Yak Siong Hardware Sdn. Bhd. had entered into the Sale and Purchase Agreement with Golden Valley Industries Sdn. Bhd. for the acquisition of a piece of freehold vacant land held under Individual Titles No. H.S.(D) 165125, PT 84462, Mukim Kapar, Daerah Klang, Negeri Selangor and measuring an area of approximately 9.514 hectares or 23.510 acres or 95,144 square meters (formerly part of the master land held under Geran 339006 Lot 50413, Mukim Kapar, Daerah Klang, Negeri Selangor) at a cash consideration of RM43,012,015.20. 2. When a member appoints more than one proxy (subject always to a maximum of two proxies at each meeting), the appointment shall be invalid unless he/she specifies the proportions of his/her holdings to be represented by each proxy.
3. The instrument appointing a proxy shall be in writing under the hand of the appointor or his attorney duly authorised in writing, or if such appointor is a corporation, either under its common seal or under the hand of an officer or attorney duly authorised.

NOTICE OF ANNUAL GENERAL MEETING

CONT'D

4. A member who has appointed a proxy or attorney or authorised representative to participate at this AGM via RPV facilities must request his/her proxy to register himself/herself at TIIH Online website at <https://tiih.online>. Please follow the Procedures for RPV in the Administrative Guide for Members on the 11th AGM.
5. The appointment of proxy may be made in a hardcopy form or by electronic means as follows:

In Hardcopy Form
The proxy form or the Power of Attorney or other authority, if any, under which it is signed or a notarially certified copy of that power or authority, must be deposited at the office of the Share Registrar of the Company, Tricor Investor & Issuing House Services Sdn. Bhd. at Unit 32-01, Level 32, Tower A, Vertical Business Suite, Avenue 3, Bangsar South, No. 8, Jalan Kerinchi, 59200 Kuala Lumpur, Malaysia, or Customer Service Centre at Unit G-3, Ground Floor, Vertical Podium, Avenue 3, Bangsar South, No. 8 Jalan Kerinchi, 59200 Kuala Lumpur, Malaysia not less than forty-eight (48) hours before the time for holding this AGM.

By Electronic Form
The proxy form can be electronically submitted to the Share Registrar of the Company via TIIH Online at <https://tiih.online>. Kindly refer to the Administrative Guide on the procedure of electronic submission proxy form via TIIH Online.
6. Any authority pursuant to which such an appointment is made by a power of attorney must be deposited with the Share Registrar of the Company at Tricor Investor & Issuing House Services Sdn. Bhd., Unit 32-01, Level 32, Tower A, Vertical Business Suite, Avenue 3, Bangsar South, No. 8, Jalan Kerinchi, 59200 Kuala Lumpur, Malaysia or alternatively, the Customer Service Centre at Unit G-3, Ground Floor, Vertical Podium, Avenue 3, Bangsar South, No. 8, Jalan Kerinchi, 59200 Kuala Lumpur, Malaysia not less than forty-eight (48) hours before the time appointed for holding the 11th AGM or adjourned general meeting at which the person named in the appointment proposes to vote. A copy of the power of attorney may be accepted provided that it is certified notarially and/or in accordance with the applicable legal requirements in the relevant jurisdiction in which it is executed.
7. Depositors who appear in the Record of Depositors as at 13 July 2022 shall be regarded as member of the Company entitled to attend the 11th AGM or appoint a proxy to attend and vote on his behalf.

NOTES ON RESOLUTIONS NO. 2 & 3

For the purpose of determining the eligibility of the Directors to stand for re-election at the Eleventh Annual General Meeting, the Board through its Nomination Committee had assessed Mr Oh Chiew Ho and Mr Oh Yung Sim (collectively "the Retiring Directors"). Please refer to the Directors' Profile section for more details on these individuals. The Retiring Directors were assessed on their performance and understanding of the Group's business. Their active participation at the Board and Board Committee meetings showed that they were prepared and were effective in the discharge of their responsibilities. No circumstances have arisen in the past year to impair their judgement on matters brought for Board discussion and they have always acted in the best interest of the Company as a whole.

Based on the above, the Board supports their re-election.

NOTES ON SPECIAL BUSINESS

(i) Resolutions No. 7 to 9

Tuan Haji Mohd. Sharif Bin Haji Yusof, Ms Seow Nyoke Yoong and En Mohamad Fazlin Bin Mohamad having served as Independent Directors of the Company since 17 November 2011. The Board has assessed their independence and recommend that they continue to act as Independent Directors of the Company based on the following justifications:-

- a. They fulfill the criteria under the definition on Independent Director as stated in the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Listing Requirements");
- b. They are able to bring independent and objective judgment to the Board as they do not have any business dealing with the Company;

NOTICE OF ANNUAL GENERAL MEETING

CONT'D

- c. With their years of experience in the Company, they are familiar with the Company's business operations, thus enabling them to contribute actively and effectively during deliberations or discussions at Board meetings;
- d. Their length of service on the Board do not in any way interfere with their exercise of independent judgement. They have remained objective and independent in expressing their views and participating in deliberation and decision-making of the Board and Board Committees;
- e. They have continued to exercise their independence and due care during their tenure as Independent Non-Executive Directors of the Company and carried out their duties in the interest of the Company and shareholders; and
- f. They have devoted sufficient time and commitment to discharge their responsibilities as Independent Directors.

The proposed Resolutions 7 to 9, if passed, will enable Tuan Haji Mohd. Sharif Bin Haji Yusof, Ms Seow Nyoke Yoong and En Mohamad Fazlin Bin Mohamad to continue to act as Independent Directors of the Company until 31 May 2023.

(ii) Resolution No.10

The proposed Ordinary Resolution will give powers to the Directors to issue up to a maximum ten per centum (10%) of the total number of issued shares of the Company for the time being for such purposes as the Directors would consider in the best interest of the Company. This authority, unless revoked or varied by the Company at a general meeting, will expire at the next Annual General Meeting of the Company.

The general mandate sought for issue of securities is a renewal of the mandate that was approved by the shareholders on 1 September 2021 ("2021 Mandate"). The Company had utilised the 2021 Mandate and raised proceeds of RM28.9 million from the allotment of 38,041,000 new ordinary shares of the Company at an issue price of RM0.76 each on 2 November 2021. The proceeds were fully utilised by January 2022 as follows:-

	RM (million)
Working Capital	12.7
Repayment of bank borrowings	15.6
Listing expenses	0.6

The renewal of the general mandate is to provide flexibility to the Company to issue new securities without the need to convene separate general meeting to obtain its shareholders' approval so as to avoid incurring additional cost and time. The purpose of this general mandate is for possible fund raising exercises including but not limited to further placement of shares for purpose of funding current and/or future investment projects, working capital and/or acquisitions.
